## **Carrier Introduces Next Generation Indoor Ductless Air Handler System**

**INDIANAPOLIS, July 8, 2022** — Today, [Carrier](#) announced the next generation of #2023Ready 40MBAB heat pump air handler. Available in sizes 18K through 60K, these new systems feature improved performance and serviceability enhancements. As part of this launch, Carrier is also pleased to introduce a new 38MARBQ outdoor unit, and a new 38MBRCQ light commercial outdoor lineup with three units. Carrier is part of [Carrier Global Corporation](#) (NYSE: CARR), the leading global provider of healthy, safe, sustainable and intelligent building and cold chain solutions.

“We’re pleased to introduce the next generation ductless air handler system to meet the growing need for high efficiency heat pumps in North America,” said Paul Rebelo, Managing Director, NA Ductless & VRF, Carrier. “Carrier is committed to developing new product lines with innovative features and improved installation and serviceability for our technicians.”

The new 40MBAB heat pump air handler’s unique features include Carrier’s patented welded-aluminum coils, wired and wireless remote-control capability, third-party thermostat compatibility, five-operating modes and quiet indoor operation. The 40MBAB has better serviceability including four-way installation, easy maintenance and

new, easier to install electric heater options. Additionally, the 40MBAB has expanded multizone compatibility, with sizes 18K through 36K now being multizone compatible.

This new lineup will be available in warehouses in August 2022.
