PREVIOUS VERSION INFORMATION

If your computer contains the prior versions of the Carrier E-CAT programs, the E-CAT Suite will automatically replace the prior version when installed. As a result it is not necessary for you to uninstall the prior version before installing the E-CAT Suite. Exceptions only exist for a major version change or a new program and in that case the prior version can be uninstalled before or after installing the E-CAT Suite.

In the January 14 Suite all releases are minor version updates
