

*Commercial Invest v5.00 replaces v4.90*

*Release: This program has been released to sales offices only. It may be given to customers.  
Password: Preferred Customer or Sales Engineer ECAT Enable password is required to run the program.*

## UPDATE DESCRIPTION

Commercial Invest v5.00 includes the following changes:

- Added product data and part load performance models for the following:  
581L 3 to 12.5 ton units  
551L 3 to 12.5 ton units  
547L 3 to 5 ton units

In addition, the following problems were corrected:

- The EER value for 559L 6-ton unit was incorrect. The value of 11.87 was corrected to 11.20.
- For 582L units, 6 to 27.5 ton units, the refrigeration system digit in the size designation was incorrectly shown as “N” rather than “M”.

## INSTALLATION PROCEDURES

### Installation via Internet Download

*To perform a full program install, please use the following procedure:*

- Download the **ecat-rt2500.exe** file from the Internet site and save it in a folder on your hard disk.
- Run Windows Explorer and double-click on the **ecat-rt2500.exe** file. This launches the program installer.
- Follow the installation instructions which appear on your screen.
- Note: The latest X Builder Framework should be installed prior to installing the Commercial Invest. All can be downloaded from the internet site.

### Running the Program

*Use the following procedure to run the program:*

- From the Windows desktop press Start, choose Programs and then choose Bryant Electronic Catalog.
- In the Bryant Electronic Catalog group click on the Commercial Invest v4.80 item.

### Minimum Computer Requirements:

- Operating System: Operating System: Windows 10 or Windows 11.
- The latest XBuilder Framework should be installed prior to installing Commercial Invest.

## PREVIOUS VERSION INFORMATION

1. Project data from Commercial Invest v4.90 cannot be used in v5.00. Continue using v4.90 to finish work in existing projects. Start new projects in v5.00.
2. Commercial Invest v5.00 will not replace v4.90 when it is installed. Therefore, when it is no longer needed, v4.40 can be uninstalled separately using the following procedure:
  - Open Windows Control Panel.
  - Select the Programs and Features item in Control Panel.
  - Right click the item “Commercial Invest v4.90” and choose the “Uninstall/change” option on the pop-up menu which appears.
  - Follow the instructions which appear on the screen.

**SPECIAL NOTES**

1. **E-CAT Enable.** Commercial Invest requires either an E-CAT Enable preferred customer password or sales office password to run. Without one of these passwords entered in E-CAT Enable, the program will not start.
2. **XBuilder Framework.** The latest X Builder Framework should be installed prior to installing Commercial Invest.
