ALARM PLACEMENT & REPLACEMENT

CHECK YOUR SMOKE & CARBON MONOXIDE (CO) ALARMS WEEKLY

Replace if they are past their useful life and make sure you have the right equipment in all areas of your home.

PLACEMENT AND REPLACEMENT RECOMMENDATIONS

State and local codes have changed over the years, please refer to local laws to check the requirements your home should meet or exceed.

	PLACEMENT Recommendations	REPLACEMENT Recommendations
Smoke Alarms	Install on every level, and inside & outside every sleeping area.	NFPA 72, the National Fire Alarm Code, requires REPLACING SMOKE ALARMS EVERY 10 YEARS.
Carbon Monoxide (CO) Alarms	Install in a central location outside every sleeping area and on every level of your home.	A CO ALARM MUST BE REPLACED AT THE END OF ITS SERVICE LIFE. UL Listed CO alarms will give an End-of-Life beep as a reminder to replace. KIDDE CO ALARMS ARE UL LISTED AND LAST 10 YEARS. (mfg after 1/2013)

SMOKE ALARM SENSOR TECHNOLOGY

I	Ionization sensing alarms may detect invisible fire particles (associated with fast flaming fires) sooner than photoelectric alarms.
P	Photoelectric sensing alarms may detect visible fire particles (associated with slow smoldering fires) sooner than ionization alarms.

DON'T TAKE SAFETY FOR GRANTED

Home safety alarms monitor 24 hours a day & 7 days a week, and are designed to provide accurate readings throughout the life of the alarm.

However, like most appliances, smoke and CO alarms don't last forever, and should be tested regularly to ensure working order.

Smart Detection featuring Kidde HomeSafe™

Real-time information at your fingertips.

From the #1 most installed fire safety brand in North America comes a comprehensive suite of smart home safety devices to help protect your home and the people inside. Plus, they interconnect with existing Kidde hardwired alarms* – when one alarm sounds, they all sound, and an alert is sent to your phone.

Smoke + Carbon Monoxide Alarm with smart features

P4010ACSCO-WF

- Whole Home activation
- Remote notification and status with Kidde HomeSafe
- Simple Setup
- Voice Alerts

21031042: 2pk box

Smoke + Carbon Monoxide Alarm with Indoor Air Quality Monitor

P4010ACSCOAQ-WF

- Indoor Air Quality Monitoring
- Remote notification and status with Kidde HomeSafe
- Simple Setup
- Voice Alerts

21030843: 2pk box

Water Leak + Freeze Detector

60WLDR-W

- Remote notification and status with Kidde HomeSafe
- Early Detection
- Simple Setup
- Easy Placement

21031205: 2pk box

*Only the Smoke + Carbon Monoxide Alarm and Smoke + Carbon Monoxide Alarm with Indoor Air Quality Monitor connect with other Kidde alarms that have hardwired AC interconnect capability.

INTELLIGENT WIRE-FREE

10-YEAR SEALED BATTERY WITH WIRELESS INTERCONNECT SMOKE AND CARBON MONOXIDE (CO) ALARMS

- **Quick & easy setup:** No WiFi required, interconnect without re-wiring
- **Voice notifications**
- **Glowing LED status ring:** Easy ID of current state of alarm
- **Bug screen:** Protects alarm from insect integration
- **UL Listed**
- **Photoelectric smoke sensor**
- **Never change a battery!**

- 10-year battery backup
- LED status ring
- Easy setup

Kidde

INTELLIGENT WIRE-FREE

INTELLIGENT WIRE-FREE FEATURES

An expansion of the 10-Year Worry-Free line, these alarms can be interconnected wirelessly without the need for extensive and expensive re-wiring. If one alarm goes into alert it will signal all of your interconnected alarms to go into alert. If a fire starts upstairs, you will know immediately downstairs.

- **Quick and Easy Setup:** No Wi-Fi required, and no dip switches. An average home setup takes just minutes.
- **Voice Alerts:** Announces the type of hazard detected. Smoke alarms announce "Fire!" when a smoke or fire hazard is detected. Combination Smoke/CO alarms additionally announce "Warning Carbon Monoxide" when a CO hazard is detected.
- **Sealed-in Lithium Battery:** No battery replacement required over the 10 year life of the alarm. Eliminates worry about battery removal and maintenance fees to change batteries.
- **Photoelectric Sensor:** Smoke alarms contain advanced photoelectric sensor that may detect visible particles (associated with smoldering fires) sooner than ionization alarms.
- **Self Activation:** Automatically activates when attached to included mounting bracket.
- **Listings:** Smoke Alarms – UL 217 Listed
  Combination alarms – UL 217 and UL 2034 Listed
  California State Fire Marshal Listed

- Tamper-resist locking feature is great for landlords and property owners
- 9v battery

FIREX CONTRACTOR FRIENDLY FEATURES

EASY INSTALLATION

- **Pre-stripped wiring harness:** Easy-off cap does not require stripper tool. Tinned strands increase conductivity and wire nut grip.
- **Front battery pull tab:** Quick activation without removing battery or alarm from ceiling.
- **Large 360˚ mounting base:** Mountable from any angle and covers drywall imperfections.

FEWER CALLBACKS

- **Dust cover:** Protects sensors from contaminates during construction.
- **One button design:** Operates Hush® and alarm test.
- **Battery run down protection:** Shuts down alarm memory when AC power is not present, reducing low battery chirp.

USER FRIENDLY

- **Front load battery door:** Makes for easy battery replacement.
- **Tamper resist locking feature:** Deters alarm and battery theft.
- **Alarm memory:** Flashes red LED indicating which unit was initiating.
- **Battery backup:** Provides protection during power failure.
- **Interconnectable:** Connect up to 24 devices (of which 18 can be initiating).

13 ft or 25 ft

468093 (2-story) : 2 pk
468094 (3-story) : 2 pk

SMOKE ALARMS SAVE LIVES

According to the NFPA, a home fire occurs approximately once every 86 seconds in the US.* Fire experts state having a working smoke alarm cuts the chances of dying in a reported fire in half. The safest way for families to protect themselves from a home fire is to make sure they have working smoke alarms that can provide an early alert and time to escape. It only takes a few minutes to install or test a smoke alarms, develop and practice an escape plan, and learn how to use a fire extinguisher.

**Source: NFPA: Fires in the United States During 2014*

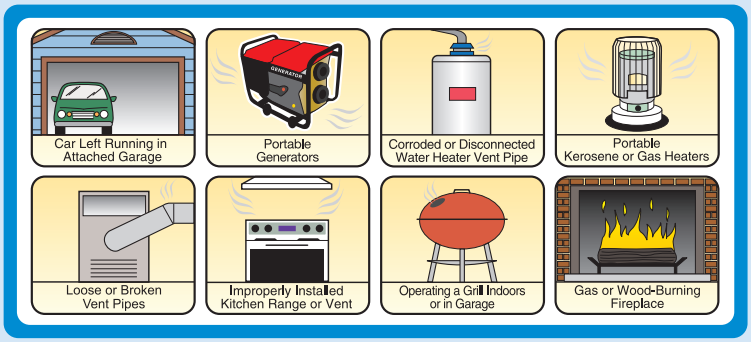
CARBON MONOXIDE: THE SILENT KILLER

Carbon monoxide (CO) is the number one cause of accidental poisoning deaths in the U.S. The poisonous gas is often called the "silent killer" because it is odorless, colorless and tasteless.

Any time a fuel-burning appliance malfunctions or is improperly installed, CO can quickly reach dangerous levels in the home, leading to injury or even death.

Symptoms often mimic the flu without a fever, and can include dizziness, severe headache, nausea, sleepiness, fatigue, weakness and disorientation.

POTENTIAL SOURCES OF CO POISONING



The only safe way to detect the colorless, odorless and tasteless gas in your home is to install a working CO alarm.

REPLACE OUTDATED ALARMS WITH KIDDE 10-YEAR BATTERY ALARMS

Worry-Free

Ten Year Sealed Battery Smoke & Carbon Monoxide Alarms

- *Sealed Lithium Battery: No missing batteries or worry of non-functioning alarm.*
- *Maintenance-Free: Battery never needs replacing. No more low battery chirps!*
- *Save time and money by investing in Worry-Free 10-Year Alarms!*

About Kidde Safety

Kidde is a world leader in fire safety products. Our mission is to provide solutions that protect people and property from the effects of fire and its related hazards. For more than 100 years, industry leaders, the military, airlines, firefighters, businesses and millions of homeowners have turned to us to do exactly that.

Choose Kidde for fire extinguishers, smoke alarms, carbon monoxide alarms, and other fire safety products.
