

CONNECTED COMFORT IS JUST THREE STEPS AWAY

To extend your Carrier Smart Thermostat's two-year limited warranty to a full five years of limited warranty protection, you are required to:

- ✓ Connect your thermostat to your Wi-Fi® network
- ✓ Accept the terms and conditions to allow your dealer to view your system status information
- ✓ Register your thermostat at productregistration.Carrier.com

1 CONNECT to Wi-Fi

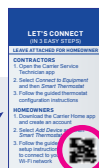

BEFORE YOU START:

Download and install the Carrier SmartHome app from Google Play or the App Store on your smart device.

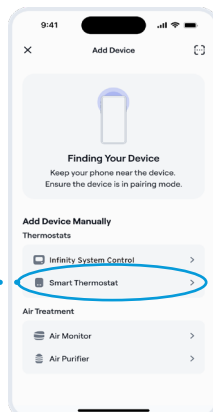

Find the mobile onboarding QR code on the hang tag on the front of your thermostat, back of your thermostat or the front cover of the installation manual.

Make sure your Wi-Fi has a dedicated 2.4 GHz network with a unique name.

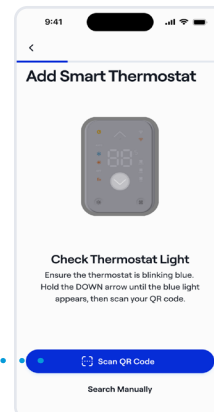

TO CONNECT YOUR SMART THERMOSTAT TO YOUR WI-FI:

- Open the Carrier SmartHome app on your smart device. If this is your first time using the app, create an account, then follow the prompts to add your home location.
- When prompted to add a device, select **Smart Thermostat**, then hit the **Add selected device** button.

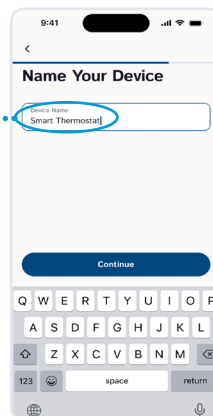

- Read the setup requirements screens, then establish a Bluetooth® connection between your smart device and the thermostat, using the QR code. Select **Scan QR code** and scan your thermostat's QR code.

NOTE: If you can't find your QR code, simply tap the **I don't have a QR Code** link to continue.

1 CONNECT to Wi-Fi can't

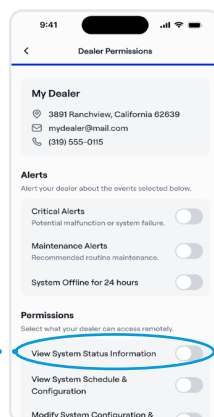

- D. Once your Smart Thermostat is connected, you will be prompted to give it a unique name.

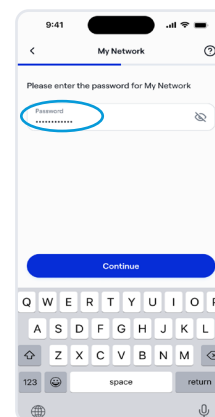

2 GRANT Dealer Permissions and Continue to CONNECT to Wi-Fi

Continue to the dealer permissions screen and make your selections.

IMPORTANT! – At minimum, you MUST select **Allow my dealer to view** system status information to extend your two-year limited warranty to the full five years.

Your Smart Thermostat will then scan for Wi-Fi networks. Select your 2.4 GHz Wi-Fi network from the list. Enter your Wi-Fi password when prompted.

3 REGISTER Your Smart Thermostat

On your computer, smartphone or tablet, go to productregistration.carrier.com and select **I'm a homeowner**.

Complete the product registration form, making sure to click **Submit** on the last screen.

Tip: You'll need the model and serial number from the back of the thermostat to complete the registration form.

FIVE YEARS OF CONNECTED COMFORT

Again, when you complete the above steps, you will extend your Smart Thermostat's two-year limited warranty to a full five years of limited warranty protection. And, when you're done, you can enjoy smart and connected comfort control from anywhere!

NOTE: Once your thermostat has been connected to Wi-Fi and registered, you can adjust your thermostat settings remotely via the Carrier SmartHome app or via your web browser using our new consumer portal my.carrier.com.
