# Multiple Solutions for Multifamily Comfort

For more than a century, homeowners have associated Bryant heating and cooling products with the highest standards of indoor comfort and Bryant dealers as service leaders. Through commitment and dedication of our product development and manufacturing teams, we have consistently met every new challenge head-on and delivered the products to meet or exceed expectations. Today, as multifamily living continues to grow, Bryant offers the industry's most versatile and comprehensive family of indoor comfort solutions for multifamily residences...Whatever It Takes.

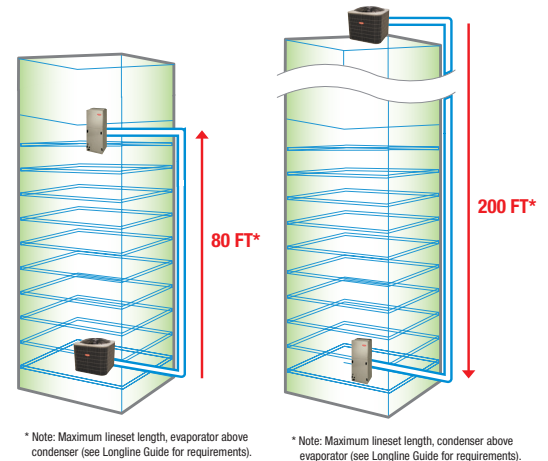

## The perfect fit for cost, comfort and convenience

Bryant is fully committed to helping you develop a customized comfort solution for multifamily residential structures.

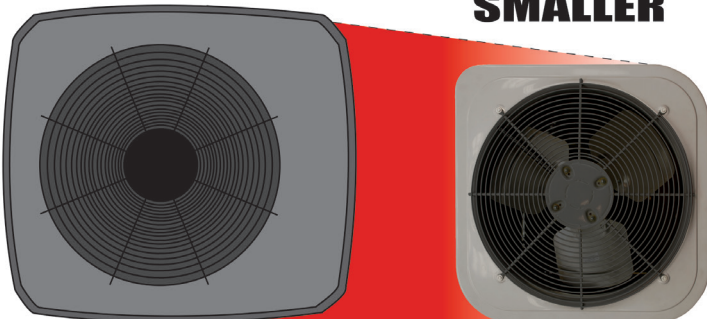

Consider we offer:

- An expansive product offering with options for new construction, add-on and replacement or renovation.
- Ease of install with long run lineset capabilities.
- Cost savings with smaller diameter linesets in most commonly sized units.
- Models with smaller footprints ideal for zero lot line, rooftop, terrace, and other tight-spaced installations.
- Dedicated support services from initial design through to final installation.
- Industry-leading warranties from the experts in home comfort.

On average, the Bryant GH5S heat pump is 20% smaller than our competition's 16 SEER single-stage heat pump.

**20%  
SMALLER**

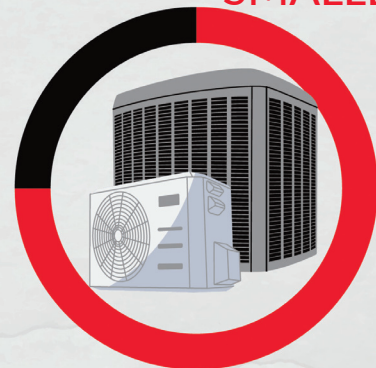

**XR16**

Based on manufacturer's specifications

**GH5S**

The Bryant Crossover (37MURAQ) Heat Pump has a footprint 75% smaller than traditional heat pumps of the same capacity, on average.

**75%  
SMALLER**
