

# i-Vu<sup>®</sup> Building Automation System i-Vu Alarming

## **Alarm Actions**

i-Vu is easily configured to perform alarm actions that can notify personnel of an alarm or record information about an alarm in your Carrier system:

- Send an e-mail
- Print
- Play an audio file
- Pop-up a message on a client PC

#### **System-Wide Alarms Button**

A system-wide alarms button is always present and changes color based on severity of alarms in your Carrier system:

- · Red critical alarms need to be acknowledged
- · Yellow non-critical alarms need to be acknowledged
- · Black no alarms need to be acknowledged

#### **Intuitive Alarm Viewer**

i-Vu's powerful alarming capabilities allow you to see alarm events in your entire Carrier system from a single screen.

Alarms are easily sorted by date, type, or incident, allowing you to respond quickly to critical alarms while filtering out nuisance alarms.

- View, acknowledge, print, or delete alarms with ease
- Search for specific alarms based on time and date

### Reports

- Alarms view alarms that are currently in the system
- Alarm Sources view all points that are configured to alarm
- · Alarm Actions view the configured actions for each alarm
