

Carrier's Certified Rebuild Program

Our customized solution for your 19XR chillers

Do more with less.

As your chillers age, opportunities for downtime increase exponentially, which can cause unexpected interruptions and challenges in daily operations. This may lead to a high CapEx hurdle and unexpected challenges when considering a full modernization project based on your building layout. Carrier's Certified Rebuild Program is here to change that.

We heard you and we've got your back. At Carrier, we value our customers, which is why we've created a brand-new program for extending the lifespan of your Carrier high-efficiency 19XR chillers with a solution that works for you.

Rebuild your chiller back to its optimal design with a reduced cost of up to 40%*

Enjoy peace-of-mind with our BluEdge service agreement with a 5-year warranty

Maximum uptime backed by connectivity with Abound HVAC Performance

Help offset efficiency loss of refrigerant upgrades with chiller plant controls optimization

With our financing partner, you can now enjoy the benefits of up to 5 years* by minimizing your cash outlay and enabling greater ease in cash flow. As your Service Provider, we will continue to provide you with an assurance of our commitment.

* All assessments will differ on a case-by-case basis with applied terms and conditions.
