Carrier Electronic Catalog
X Builder Framework v1.06n
Release Sheet

X Builder Framework v1.06n replaces v1.06m

UPDATE DESCRIPTION

X Builder Framework provides common features for most Electronic Catalog and eDesign programs. It can also be used as a central launch portal for all Electronic Catalog software. The software appears as "Carrier Electronic Catalog" on the Start/Programs Menu.

If you launch the X Builder Framework from the "Carrier Electronic Catalog" icon on the Start Menu you can make best use of these common features. For example, you can configure any Tag in an existing ECAT Project simply by double-clicking the Tag on the Project tree, or create any kind of new Tag in the Project by clicking the New Tag button.

X Builder Framework v1.06n includes the following change:
• Updated the Technical Support email link

INSTALLATION PROCEDURES

Installation via Internet Download
If one of the X Builder Framework versions 1.05 thru 1.06m is installed on your computer, you can save time by installing a patch update. This is the first procedure below. Otherwise, a full program installation is required. This is the second procedure below.

To perform a patch install, please use the following procedure:
• Download the **ecatp-xbf106n.exe** file from the Internet site and save it in a folder on your hard disk.
• Run Windows Explorer and double-click on the **ecatp-xbf106n.exe** file. This launches the program installer.
• Follow the installation instructions that appear on your screen.

To perform a full program install, please use the following procedure:
• Download the **ecat-xbf106n.exe** file from the internet site and save it in a folder on your hard disk.
• Close any other programs running on your desktop computer.
• Run Windows Explorer and double-click on the **ecat-xbf106n.exe** file. This launches the program installer.
• Follow the installation instructions, which appear on your screen. After installation you may be asked to reboot.

Running the Program

• From the Windows desktop press Start, choose Programs and then choose Carrier E-CAT/E20-II programs.
• In the Carrier E-CAT/E20-II Programs group click on the Carrier Electronic Catalog v1.06n icon.

Minimum Computer Requirements:
• Operating System: Windows 10, or Windows 11.

PREVIOUS VERSION INFORMATION

1. X Builder Framework v1.06n automatically replaces v1.06m. It is not necessary to uninstall v1.06m before installing v1.06n.

SPECIAL NOTES

1. **Adobe Acrobat, AutoDesk VoloView.** Certain X Builder Framework components depend on Adobe Acrobat Reader and Autodesk Voloview or TrueView drawing viewer. These components need to be downloaded and installed separately if your computer does not yet contain this software. Acrobat Reader can be downloaded from the Adobe web site at www.adobe.com/products/acrobat and then installed.
