

BOTTOM VENTED UNIT COVERS

Totaline condensing unit covers are made of a heavy-duty vinyl with a durable cloth backing that resist ripping and tearing. This long lasting material is also specially treated to be UV and cold-crack resistant. Covers are available in a neutral gray or beige color and they're secured with a convenient hook-and-loop strap sewn around a precision cutout for the unit's electrical and refrigeration lines.

Our bottom vented air conditioner covers are ½" to 2 inches short to provide airflow from the bottom of the unit and the refrigeration opening. This design allows a minimum of 36 square inches of crossventilation.

All covers are ordered by specifications.

FEATURES

- Keeps out dirt and debris during off-season.
- Helps reduce maintenance costs
- Can prolong life of the condensing unit.
- Premium 18 ounce industrial vinyl with a cloth backing. Gray or beige color to match cabinet.
- Precision tailored to fit the exact shape of cabinet
- Material is specially treated against UV and sub-zero temperatures.
- Precision opening to fit electrical and refrigeration lines with convenient hook-and-loop closure.
- Lifetime limited warranty.
