CAC/BDP (hereinafter “Company”) warrants this product against failure due to defect in materials or workmanship under normal use and maintenance as follows. All warranty periods begin on the date of original installation. If a part fails due to defect during the applicable warranty period, Company will provide to the servicing dealer or contractor (i) a new or remanufactured part, at Company’s option, to replace the failed defective part at no charge for the part and (ii) a labor allowance intended to cover the labor incurred by licensed HVAC technicians in connection with the installation of a new or repair warranty part and only to the extent specifically set forth in the then existing labor allowance schedule provided by Company’s Warranty Department. Actual labor costs are not covered by the limited labor warranty to the extent they exceed the amount allowed under said allowance schedule, they are not specifically provided for in said allowance schedule, they are not the result of work performed by a licensed HVAC technician, they are incurred in connection with a part not covered by this limited warranty, or they are incurred after the limited labor warranty periods set forth in the table below. Alternatively, and at its option (if the failure occurs during the applicable limited warranty period), the Company will provide a credit in the amount of the then factory selling price for a new equivalent part and the associated labor allowance toward the retail purchase price of a new Company product. Except as otherwise stated herein, those are Company’s exclusive obligations under this warranty for a product failure. This limited warranty is subject to all provisions, conditions, limitations and exclusions listed below and on the reverse (if any) of this document.
