INTELISENSE™ TECHNOLOGY

The smart choice for an improved service experience

Carrier is proud to introduce its patent-pending IntelliSense technology which merges connected Performance™ Series heating and cooling equipment with Internet-connected ecobee for Carrier smart thermostats to deliver a smarter, faster, and more efficient service experience to you, the homeowner.

A Better Service Solution for Today's Homeowners

Indoor home comfort in an Internet-focused world needs to be smart, convenient, and connected. That's IntelliSense. With IntelliSense technology, your dealer can monitor the performance of your system, perform remote troubleshooting, and potentially resolve your issue without the need for a service call.

How the Technology Works

IntelliSense technology utilizes sensors to gather critical indoor and outdoor equipment performance data. This data is then accessed by your dealer who can reassure you that your system is running properly.

If a service call is required, you can be sure that your dealer will likely be more prepared based on the IntelliSense data sharing – showing up with the right part and the right service technician the first time.

Simple, Convenient Control

At the center of IntelliSense technology are the ecobee for Carrier smart thermostats - the ecobee3 lite and the ecobee Smart Thermostat Premium. These thermostats make the connection between you, the homeowner, and the equipment featuring IntelliSense technology. And you can control your comfort easily from anywhere using the ecobee app*. If you select the ecobee for Carrier Smart Thermostat Premium, you can also enjoy:

- Built-in indoor air quality monitor
- HVAC accessory support
- Occupancy sensing
- Voice assistant built-in
- Wireless SmartSensor
- Built-in speaker for music streaming

Excellence in Comfort Since 1902

For more than 100 years, Carrier has been a leader in the industry with innovative ideas, pursuing excellence in heating and cooling solutions for homeowners. Performance Series systems with IntelliSense technology continue the tradition of innovation and our commitment to technological excellence.

*Available on Google Play™ or the Apple App Store®, and when connected to the Internet through a Wi-Fi® network.

Performance Series Equipment Featuring IntelliSense Technology

An IntelliSense technology system must include specific IntelliSense-enabled Performance Series indoor and/or outdoor products, an ecobee for Carrier smart thermostat featuring IntelliSense and an Internet connection. These IntelliSense-enabled products are listed below. For enhanced comfort and indoor air quality, don't forget to have your dealer add air purification, humidity control, ventilation, UV lights, and indoor air quality monitoring.

	Performance SERIES	IntelliSense™ TECHNOLOGY	
	Model	Sensors and Readings	Product Features
80% Gas Furnace	58TP0, 58TP1, 58SP0, 58SP1	<ul style="list-style-type: none"> Fault codes, return air temp, supply air temp, blower motor RPM 	<ul style="list-style-type: none"> 80% AFUE efficiency Two-stage heating (Model 58TP0B) Variable-speed blower
90% Gas Furnace	59TP6, 59SP6	<ul style="list-style-type: none"> Fault codes, return air temp, supply air temp, blower motor RPM 	<ul style="list-style-type: none"> ENERGY STAR® certified Up to 96.5% AFUE Two-stage heating (Model 59TP6C) Variable-speed blower
Fan Coil	FT4B	<ul style="list-style-type: none"> Return air temp, supply air temp, blower motor RPM 	<ul style="list-style-type: none"> Two-stage operating fan coil Dehumidification capability offers better than average humidity control All size cabinets will accommodate standard size filters
Air Conditioner	24TPB7	<ul style="list-style-type: none"> Liquid line pressure and temp, suction line pressure and temp, outdoor air temp 	<ul style="list-style-type: none"> ENERGY STAR® certified Up to 17.5 SEER2 cooling efficiency Two-stage cooling
Heat Pump	25TPB7	<ul style="list-style-type: none"> Liquid line pressure and temp, suction line pressure and temp, outdoor air temp 	<ul style="list-style-type: none"> ENERGY STAR® certified Up to 17.5 SEER2 cooling efficiency Up to 8.1 HSPF2 heating efficiency Two-stage heating/cooling
Thermostats	EB-STATE6ICR-01 EB-STATE3LTICR-01		<ul style="list-style-type: none"> Full color LCD touchscreen Available wireless remote SmartSensor* Built-in air quality monitor* Voice assistant built-in* Built-in speaker for music streaming* <p style="text-align: right;">*EB-STATE6ICR-01 only</p>
