

Carrier® Boilers

Gas and oil boilers with up to 95.0% AFUE

Qualifying Models Only

BWM, BW9, BW5, BW4, BW3, BWB, BS2

What You Can Expect From Carrier

Innovation, efficiency, quality: Our Carrier® boilers offer dependable heating and efficient performance you'll appreciate every day this winter. Throughout our boiler line, we never lose sight of the Carrier quality, environmental stewardship and lasting durability that have endured for more than a century.

Efficiency

AFUE (Annual Fuel Utilization Efficiency) ratings are like your car's MPG – the higher the number, the greater the potential for savings. The Performance™ 95 gas boiler delivers up to 95.0% AFUE heating and the Performance 90 gas boiler achieves up to 90.0% AFUE. Both offer the potential for savings over an older, less efficient model you may be replacing.

Versatility

Carrier boilers are engineered for big performance from a compact cabinet. These models should easily fit into the space of an older, larger unit you may be replacing, and provide greater versatility for new installations.

Limited Warranty

To the original owner, the Carrier Performance 95 and Performance 90 boilers are covered by a 10-year parts and 15-year heat exchanger limited warranty upon timely registration. The Carrier Performance 86 and Performance 84 boilers and the Comfort™ 80 boilers are covered by a 10-year parts and 20-year heat exchanger limited warranty upon timely registration. The Comfort 80 (BS2) has a 10-year parts and 12-year heat exchanger limited warranty upon timely registration. The parts limited warranty period is five years if not registered within 90 days of installation except in jurisdictions where warranty benefits cannot be conditioned upon registration. See warranty certificate at carrier.com for complete details and restrictions.

A Range of Comfort

Carrier delivers boilers in a range of shapes and sizes. Check out this side-by-side comparison to see how our Performance™ Series models measure up against our Comfort™ Series model.

The Carrier® Difference

If you could look under the hood of a Carrier® Performance™ 95 boiler, model BWM, you'd see what drives the performance: a serious commitment to quality. This boiler provides excellent heat transfer and energy efficiency with its stainless steel heat exchanger. It also features a modulating gas valve that maintains your desired comfort by adjusting settings to best match current conditions.

The Performance 90 boiler, model BW9, provides warm comfort and durability with its cast-aluminum heat exchanger. Both models offer responsive, energy-efficient comfort backed by one of the most trusted and recognized names in comfort: Carrier.

The Total Indoor Comfort System

Your Carrier dealer will recommend a system to meet your home-comfort needs and local weather environment:

1. **Boiler** provides reliable, efficient heating for long-lasting comfort and potential energy savings.
2. **Air Conditioner** provides reliable, efficient cooling for long-lasting comfort and potential energy savings.
3. **Côr® Wi-Fi® Thermostat** offers more precise, programmable comfort from your web-connected device.*
4. **Humidifier** replenishes moisture to dry air.

* Thermostat must be connected to Wi-Fi, App requires IOS® or Android® mobile device.

More Than a Century of Cool

In 1902, a determined engineer answered one of mankind's most nagging questions: How do we make hot, sticky, indoor air go away? In creating the world's first modern air conditioning system, Willis Carrier forever changed indoor life, and, more than a century later, the corporation that bears his name takes inspiration from his example.

Carrier strives to improve on our founder's breakthroughs, introducing new technologies that make life at home even cooler. Today, a nationwide network of experts continues to advance Willis Carrier's lifework. Your expert Carrier dealer is equipped to evaluate your home and create a customized system designed around your lifestyle.
