

Opti-V Heat Pumps

Comfort without compromise

featuring
Puron
ADVANCE™

Model: MCY8

Why Homeowners Are Choosing Opti-V for Modern Living

Opti-V heat pumps deliver the ultimate in comfort, efficiency, and control. Engineered with advanced technology and backed by rigorous testing, these systems provide near silent performance and customizable comfort for every corner of your home.

Ideal for whole-home solutions, they offer precise zoning to eliminate hot and cold spots while maximizing energy savings—all in a sleek, reliable package designed for modern living.

ENVIRONMENT

With Puron Advance™, Carrier® proudly continues our century-plus commitment to environmental stewardship. It's a refrigerant that delivers a 75% decrease in global warming potential while maintaining the non-ozone depleting properties of original Puron.

FLEXIBLE INSTALLATION

Connect up to nine indoor units to a single outdoor system for personalized comfort in every room. With six indoor unit options, you can mix and match to fit your home's design needs.

EFFICIENCY

With SEER2 ratings up to 20.3 and HSPF2 ratings up to 10.7, all our Opti-V Systems are ENERGY STAR® certified. Take advantage of added energy-saving features like eco mode to cut energy costs up to 60%—without compromising on comfort.

SOUND

Opti-V heat pumps quietly deliver efficient heating and cooling for your home. Each model features an inverter-driven compressor that adjusts output automatically to maintain ideal comfort. With sound levels as low as 56 dB(A), they offer powerful performance with near silent operation.

BUILT FOR ALL CLIMATES

Enjoy reliable comfort year-round with performance you can count on, from -13°F to 122°F. Whether it's the chilly winter nights or hot summer days, the Opti-V heat pump is engineered to keep your home comfortable without compromise.

CONVENIENT CONTROLS AND FEATURES

Toshiba Opti-V systems offer a wide variety of smart, programmable, and touch screen controls options to keep your system running at peak efficiency while delivering precise comfort to every room.

LIMITED PARTS WARRANTY

To the original owner, Toshiba-Carrier Opti-V heat pumps are covered by a 10-year parts limited warranty upon timely registration.*

*Limited warranty period is five years for parts if not registered within 90 days of installation except in jurisdictions where warranty benefits cannot be conditioned upon registration. Please see warranty certificate for further details and restrictions.

Bring a Boost of Comfort to Any Room

COMPACT DESIGN & BUILT-IN RELIABILITY

Experience comfort re-imagined with the Opti-V heat pump. Designed to deliver quiet, efficient performance and personalized temperature control throughout your entire home.

When installed with custom-matched Opti-V indoor units, our heat pump can precisely match your comfort needs while reducing your energy use.

INNOVATIVE INVERTER TECHNOLOGY

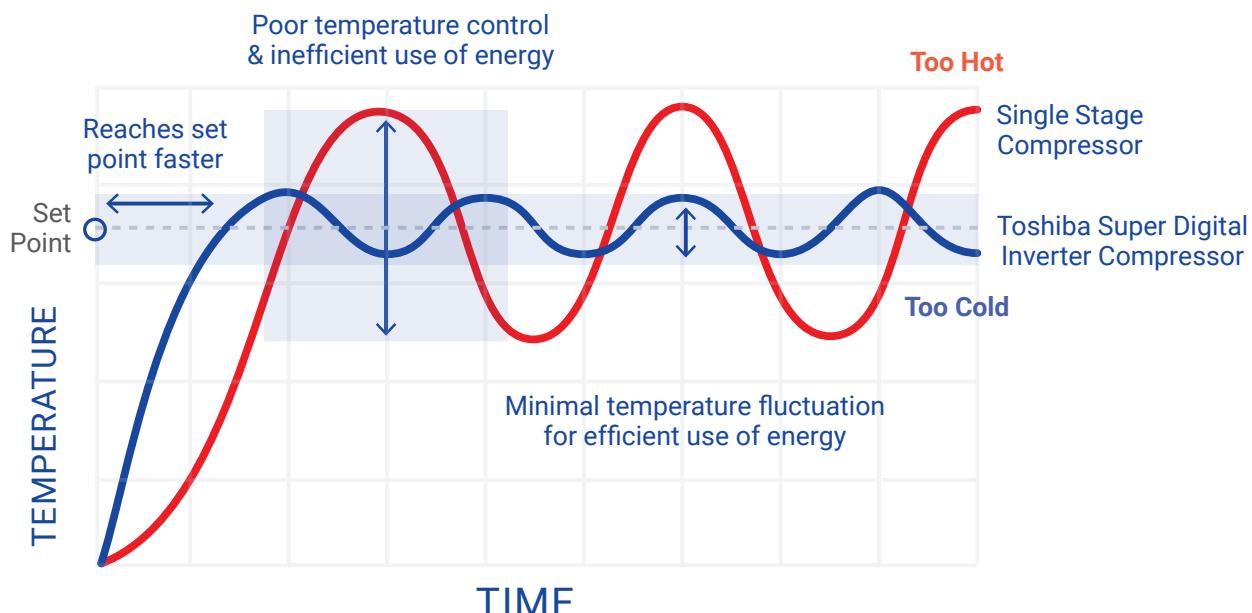

The Opti-V heat pump's hermetically sealed twin rotary compressor* is driven by Toshiba-Carrier's Super Digital Inverter technology. This technology allows Opti-V heat pumps to perform with greater efficiency than traditional single-stage compressors.

*Image for illustrative purposes only.

The Opti-V Advantage

The Opti-V heat pump uses an advanced twin rotary compressor with a wide capacity range, so it can deliver the comfort you want while using less energy. Thanks to precision engineering—like improved motor design and optimized airflow—the system runs more efficiently and reliably, giving you powerful performance without wasting power.

Compatible Indoor Units

Your Toshiba-Carrier dealer will recommend the indoor unit to meet your home-comfort needs.

Wall Mounted

These sleek units are easily installed, perfect for bedrooms, living rooms, and home offices.
