Complete Comfort and Energy Savings, Plus Exceptional Service From Your Bryant® Dealer

Models 280ANV, 288BNV, 289B, 286B, 285B
MULTI-STAGE OPERATION
Bryant® Evolution® System heat pumps with multi-stage capabilities offer a wealth of benefits due to this technology.* You’ll enjoy reduced energy consumption, more consistent indoor temperatures, quieter operation, better humidity management and excellent zoning system performance.

VARIABLE-SPEED TECHNOLOGY
This technology uses intelligent system control to precisely match heat pump fan and/or compressor performance to current conditions (models 280ANV, 288BNV). The resulting output is comfort that is just right, efficiency that is off the charts, and operation that is incredibly quiet. It’s so smart it actually “learns” which settings provide the best possible combination of comfort and energy efficiency.

PERFECT HUMIDITY® TECHNOLOGY
Perfect Humidity® technology ensures optimal summertime cooling dehumidification when system components include a humidity-sensing control, multi-speed heat pump and a properly matched fan coil or furnace inside.

HYBRID HEAT® DUAL FUEL SYSTEM
Combine the Evolution® Extreme heat pump with a recommended Bryant® Evolution® gas furnace to create a Bryant HYBRID HEAT® Dual Fuel System. A HYBRID HEAT system automatically chooses the most efficient fuel source for heating to provide the ultimate defense against unpredictable fuel costs.

*Model 285B is single-stage.
The Evolution® System Story
With a state-of-the-art communication system at its core, the Evolution® system is capable of delivering high-efficiency performance and total home comfort all year long. The Evolution system gives you more control over temperature, humidity, indoor air quality, fan speed, and ventilation. Its smart communicating system can even detect when it needs to be serviced. Enjoy superior comfort and performance with the Evolution system from Bryant.

EVOLUTION® CONNEX™ CONTROL
Connect with your comfort using our deluxe, full-color touch screen for programming and managing a completely customized home comfort schedule including temperature, humidity, ventilation and zoning with available wireless access.

HUMIDIFIER
Adding moisture to dry, heated air can enhance your comfort, protect your woodwork and minimize static.

AIR PURIFIER
Patented Captures and Kills™ technology treats 100% of the air flowing through your system to both filter and eliminate selected airborne pathogens.

VENTILATOR
Maintain a fresh, comfortable indoor environment by transferring heating and cooling energy to incoming fresh air.

INDOOR FAN COIL
A properly matched fan coil works with your outdoor heat pump to convert heating and cooling energy and deliver more comfortable air to your home. Or, install a gas furnace and evaporator coil to provide the additional benefits of a HYBRID HEAT® system.

EVOLUTION® SYSTEM HEAT PUMP
Our Evolution® System heat pumps provide high-efficiency heating and cooling and enhanced humidity management for comfort your family can really appreciate.
- Up to 20.5 SEER cooling efficiency
- Up to 13 HSPF heating efficiency
- AeroQuiet II™ sound reducing technology
- Many systems meet ENERGY STAR® efficiency guidelines
- Available variable speed technology (models 280ANV, 288BNV) for improved efficiency and maximum comfort
- Intelligent system control
Indoor Air Quality
The air inside your home can be five times dirtier than the air outside. Dry heated air, sticky summer humidity, and stale air from today’s “tighter” more insulated homes all contribute to your indoor environment. Ask your dealer about a 30-minute air analysis to learn more about the quality of the air in your home.

Controls
Bryant offers a range of solutions for managing your system. Whether you’re looking for Wi-Fi® thermostats with energy reporting for the ultimate in connected control, advanced communicating controls, zoning management or more basic thermostats—you’ll have the system control you want.

Evolution® Connex™ Control
The Evolution® Connex Control puts comfort at your fingertips. Capable of managing a complete home comfort system including temperature, humidity, ventilation and zoning, it is also the brains behind Bryant’s highest-efficiency Evolution® products. Its user-friendly, touch-screen design is packed with intelligent, energy-management features.
Top Reasons It Takes Bryant®

EXCEEDING EXPECTATIONS
With more than 100 years of experience, Bryant offers a full lineup of products designed with whole-home comfort in mind, including our exclusive Evolution® Extreme heat pump with inverter-controlled, variable-speed technology. Through innovative design and rigorous testing, our products are built to exceed expectations, backed by Bryant® warranty protection.

NEW CONVENIENCES
With a diverse line of products to address almost any need, from hot or cold spots, to improving indoor air quality and programmable thermostats with Wi-Fi® capabilities, convenient comfort can be yours when you choose Bryant.

PASSIONATE SERVICE
Bryant® dealers do more than just deliver quality products like our Evolution® heat pumps. They also deliver knowledge, experience and Whatever It Takes® to get each job done right, the first time. You and your system will receive the attention to detail and professional service delivered only by Bryant® dealers.

CUSTOMIZED COMFORT SOLUTIONS
Heating and cooling solutions are not one size fits all. Our dealers provide solutions based on your specific needs. From financing and rebates to reliable products professionally installed, Bryant provides options that help keep you and your wallet comfortable.

EFFICIENCY & SAVINGS
High-efficiency ENERGY STAR® qualified systems like the Evolution® Extreme heat pump can reduce your energy consumption and carbon footprint. By reducing monthly utility bills over the life of your system, you’ll see how efficient equipment pays off.

Customized Comfort On Three Different Levels
There is a Bryant heat pump for almost any comfort need or budget. Your Bryant dealer can help you decide which is right for you. For top-of-the-line comfort, efficiency and performance, choose one of our Evolution System heat pump models.

Warranty
To the original owner, Bryant Evolution heat pumps are covered by a 10-year parts limited warranty upon timely registration of your new equipment.* Ask your Bryant dealer about optional extended warranties, which may include labor.
*The limited warranty period is 5 years on parts if not registered within 90 days. Jurisdictions where warranty benefits are not conditioned on registration will automatically receive a 10-year parts limited warranty and a lifetime parts limited warranty on the heat exchangers. See warranty certificate at bryant.com for complete details and restrictions.
For more than a century, homeowners have associated Bryant® heating and cooling products with the highest standards of indoor comfort and Bryant dealers as service leaders. Through commitment and dedication of our product development and manufacturing teams, we have consistently met every new challenge head-on and delivered the products to meet or exceed expectations. Our national network of passionate Bryant dealers is at the forefront of our success. Knowledgeable in the field, and equipped to address your home comfort needs, our dealers deliver customized comfort solutions to you and your family by doing...
