Home Comfort Components

14
SEER

SEER (Seasonal Energy Efficiency Ratio) is an average measure of how efficiently your air conditioner or heat pump uses electricity to provide cooling.

11.5
EER

EER (Energy Efficiency Ratio) is a measure of how efficiently your air conditioner or heat pump uses electricity to provide cooling on hot summer days (measured at 95° F).

8
HSPF

HSPF (Heating Seasonal Performance Factor) is a measure of how efficiently your heat pump uses electricity to heat your home. (Model PH4Z)

MODEL PH4Z Heat Pump

1 ENERGY EFFICIENT

Our compressor is designed for use with Puron® refrigerant to provide quiet comfort and years of environmentally sound, energy-efficient operation. (Scroll compressor available on select models.)

2 QUIET OPERATION

Our uniquely-designed fan blade moves air with less sound and turbulence for quieter, more efficient operation.

3 A PERFECT FIT

Our 32" narrow cabinet design (all models and capacities) allows a perfect fit for zero lot line applications or most other space-challenged locations.

4 DURABILITY AND INDOOR AIR QUALITY

The foundation of these models is our premium base which is made of a high-tech, composite that will not rust. An integrated drain with sloped design improves indoor air quality by inhibiting mold, algae and bacterial growth through improved drainage.

5 LASTING LOOKS AND PROTECTION

Louvered side panels provide proper airflow while protecting the all-important coil. Solid cabinet panels help protect against infiltration of dirt, debris and moisture.

6 COOL, CORROSION-RESISTANT COMFORT

Our standard copper tube/aluminum fin coil delivers excellent cooling performance and durability. For added corrosion protection, ask your dealer about our optional DuraCoat™ tin-plated coil.

Controls

Bryant offers a range of solutions for managing your system. Whether you're looking for Wi-Fi® thermostats with energy reporting for the ultimate in connected control, zoning management or more basic thermostats—you'll have the system control you want.

Housewise™ Wi-Fi® Thermostat

The Housewise thermostat is part of a new breed of comfort management devices that saved homeowners an average of 20% on their heating and cooling energy costs. With Wi-Fi® capability, you can access your system 24/7 from almost anywhere and view detailed energy reporting from your tablet or web portal. Combine that with custom energy tips and you can make informed decisions about when and how to save even more money.

Housewise™ Wi-Fi®
Thermostat

Bryant® Wi-Fi® Thermostat

This thermostat is about more than simply giving you remote access. It's about helping you save money on energy through advances in programming design, smart recovery and energy-use reporting. You can see when you're spending the most on energy and tailor your settings to save. And, when you're not home, this thermostat will work to heat or cool the most efficient way possible for your system type and brand.

Bryant® Wi-Fi®
Thermostat
