Built with strength

When you choose Airquest® heating and cooling equipment, it means your home comfort is backed by superior engineering and quality manufacturing so you can enjoy more important things. Each unit is 100% run tested, and we design our products to give you the best in quality, energy efficiency and reliability. It's our tradition to deliver products that exceed your expectations. You can depend on us.

Backed by exceptional warranties

The only No Hassle Replacement™ limited warranty that you'll find in the industry backs every Airquest Deluxe oil furnace. It means comfort with no questions. We'll replace your unit if the heat exchanger fails within the covered period. We give you extra coverage in addition to a 10-year parts limited warranty.*

Deluxe oil furnaces

The Deluxe oil furnace series offers our best comfort in the cold seasons, from the highest featured to the budget-friendly with available variable-speed fan motors as well as heat exchanger and burner options.

What is an oil furnace?

Airquest oil furnaces are designed for the best durability and comfort. Our highest efficiency models are available in multiposition hi-boy with upflow, downflow and horizontal flow options. Our lo-boy model is available in an upflow configuration. Most models can be installed in existing chimneys. Most furnaces come prewired for addition of central air conditioning, air cleaners or humidifiers. The oil furnace can be combined with an indoor evaporator coil and properly matched outdoor air conditioner or heat pump to provide cooling during the warm seasons.

What sets Airquest® oil furnaces apart?

- **Control Panel** – Permits easy technician access to accessory terminals; prewired for easy add-on of electronic air cleaner, central humidifier and air conditioner.
- **Large, External Front Clean-Out** – Provides for easy unit cleaning and maintenance.
- **High-Efficiency Burners** – Provide optimum efficiency and performance when matched to furnace installation. Your dealer can specify which burner best suits your needs.
- **Factory-Installed Test Ports/Sight Glass** – Allow ample access for set-up and service.
- **Variable-Speed ECM Circulation Blower Motor (some models)** – Balanced to ensure quiet, efficient air circulation; permanently lubricated to provide optimum service year after year.
- **Heavy-Duty Insulated Steel Cabinet** – Ensures quiet operation.
- **Reduced Clearance** – Allows installation in tight areas.
- **Stainless Steel Heat Exchanger** – Provides reliable operation year after year; backed by a lifetime limited warranty (upon timely registration).

*To the original owner, Airquest products are covered by a 10-year parts limited warranty upon timely registration. The limited warranty period is 5 years if not registered within 90 days of installation. Jurisdictions where warranty benefits cannot be conditioned on registration will automatically receive a 10-year parts limited warranty. See warranty certificate for complete details.

What matters in an oil furnace?

Get the most out of a heating system by choosing the oil furnace that fits your comfort needs. All of our oil furnaces include comfort enhancing and durable features to deliver lasting performance. For year-round efficiency as the furnace blower runs during the cooling season, look for variable-speed and ECM blower motors. Our No Hassle Replacement limited warranty is offered on our premium products to give you peace of mind. Airquest oil furnaces offer energy efficiency, increased comfort, durable performance, and quiet operation.

Efficiency ratings—what do they mean?

Annual Fuel Utilization Efficiency (AFUE)—*Measures the heating efficiency of a gas furnace. The higher the AFUE, the greater the gas heating efficiency and energy savings potential.*
