COMFORT WITH CONFIDENCE

Choose Airstest heating and cooling equipment so you can enjoy comfort with confidence. Our products deliver exceptional quality, reliability and energy efficiency, backed by time-tested engineering and leading-edge manufacturing. If you could look under the hood of a Airstest Performance Series horizontal air conditioner, you'd see what drives the efficient, reliable comfort: a serious commitment to quality.

ENERGY EFFICIENCY

SEER2 (Seasonal Energy Efficiency Ratio) measures the cooling efficiency of air conditioners during an average cooling season. EER2 (Energy Efficiency Ratio) measures cooling efficiency during a set temperature (95° F). For each of these ratings, the higher the number, the greater the potential for energy savings. Performance Series horizontal air conditioners offer up to 16.0 SEER2/13.0 EER2. Additionally, the horizontal design of the coils allows for more efficient heat transfer, which can lead to lower heating and cooling bills.

RUGGED BUILD

Built for lasting durability with a galvanized steel cabinet, heavy-duty wire fan guard that shields these units from exposure to hail, errant soccer balls, lawn equipment and more. All this in a compact cabinet that can be installed on a roof, under a deck, or on a balcony to save space, or even stacked to provide comfort for larger living spaces or zoned systems.

SOUND

Our smooth-running compressor represents the quiet, reliable performance you expect. The quiet operation reduces noise pollution both indoors and out for more peaceful, comfortable spaces. The S4A5S has sound performance as low as 65 dBA.

PEACE OF MIND

To the original owner, our Performance Series horizontal air conditioners are covered by a 10-year parts limited warranty upon timely registration. See warranty certificate for complete details and restrictions.*

* Timely registration required for 10-year parts limited warranty. Limited warranty period is five years for parts if not registered within 90 days of installation except in jurisdictions where warranty benefits cannot be conditioned upon registration. Please see warranty certificate for further details and restrictions.

All systems tested and listed by the appropriate agencies.
