

KeepRite® Ultra-Low NOx Packaged Heating & Cooling Systems

KeepRite®
Heating & Cooling Products
The Pros Know.

QuietComfort® Series PGS42**
Performance Series PGD42**

Built with strength

When you choose KeepRite® heating and cooling equipment, it means your home comfort is backed by superior engineering and quality manufacturing so you can enjoy more important things. Each unit is 100% run tested, and we design our products to give you exceptional quality, energy efficiency and reliability. We deliver products that give you the most in home comfort so you can enjoy comfort with confidence.

Backed by exceptional warranties

Every KeepRite product is backed by an up to 10-year parts and compressor limited warranty so you'll have peace of mind.**

Timely registration required.
See warranty certificate for
details and restrictions.

What is a packaged system?

KeepRite packaged all-in-one units are designed for durability and comfort. The units stay enclosed outside or on a roof and come in a variety of combinations: dual-fuel gas furnace/heat pump, gas furnace/air conditioner, electric heat pump and electric air conditioner.

What matters in a packaged system?

Get the most out of a packaged system by choosing the product that fits your comfort needs. All of our packaged products include comfort enhancing and durable features to deliver lasting performance. For the ultimate of comfort, look for modulating and two-stage heating or cooling operation as well as multi- and two-speed blower motors. Our QuietComfort® units feature hail guard wire grilles, tin-plated copper evaporator coil tubing, and stainless steel heat exchangers (in gas heating units). KeepRite® packaged units offer energy efficiency, increased comfort, durable performance and quiet operation.

Standard Model

What sets KeepRite packaged units apart?

1. Copper/aluminum coils and quality copper tubing.
2. High-pressure switch to protect system.
3. ECM indoor blower motor provides efficient airflow.
4. Control panels allow for quicker, easier service access.
5. Rugged pre-painted steel cabinet, full perimeter metal-base rails, and wire grilles to protect the coil.

The benefits of reduced NOx emissions

Our ultra-low NOx packaged units are designed for California residents in the South Coast Air Quality Management District and San Joaquin Air Pollution Control District looking for a heating solution that limits NOx emissions to 14 nanograms per joule. Thanks to our special pre-mix burner design, these 81% AFUE packaged units reliably heat your home while significantly reducing emissions that contribute to smog, acid rain, water quality deterioration and more. They are the perfect solution for the environmentally aware homeowner.

PGS4**2 QuietComfort® 14 Ultra-Low NOx Packaged Gas Furnace/Air Conditioner

- Up to 81% AFUE heating efficiency
- Up to 14 SEER/11.5 EER cooling efficiency
- Multi-speed ECM blower motor for improved temperature control and dehumidification
- Efficient single-stage scroll compressor
- Cost-saving single-stage gas valve
- Stainless steel heat exchanger
- Hail guard wire grille
- Three-Year No Hassle Replacement™ Limited Warranty*
