**With the Midea DLFSHA Ductless
High Wall Unit**

Model DLFSHA: Sizes 6-36 (208/230V1/60), Size 12 (115V1/60)

Purpose-Built to Make Life Easier & More Comfortable

When selecting an HVAC system, it's a no-brainer that it needs to be efficient and flexible. But what about the installation, use and service of that system? Well, it should be equally as low maintenance and stress-free.

Get the ease of use and reliability you've come to expect from your HVAC system with the Midea High Wall—the ductless indoor unit designed to improve efficiency, usability and overall in-home comfort.

Time-Saving Design. Multiple Modes. The Ductless High Wall Has It All.

We've pulled out all the stops to deliver an efficient unit that solves some of your biggest heating and cooling challenges.

- **Installation is easy and minimal** with no ducts and no need to tear into, patch and repaint walls.
- It's **compatible with both single and multi-zone outdoor units**, so you can customize your comfort—no matter how big or small your space is.
- And, with **three standard modes**, efficient and rapid heating or cooling is always attainable.

Sleep: Conserves energy with a built-in light sensor that detects the brightness of the room. When the lights are off, the LED display dims down automatically.

Turbo: Rapidly heats or cools a room by operating at full capacity for 20 minutes or until reaching a set threshold—whichever comes first.

Dry: Dries, filters and slightly cools the room's temperature.

High Wall, Big Features

Relative Humidity Sensor:

The relative humidity can be adjusted in 5% increments from 35%-85% while in Dry Mode.

Timer:

Allows users to set a time for the unit to stop automatically.

Follow Me:

The unit senses the temperature at the handheld remote and adjusts accordingly.

Self-Clean:

The system automatically cleans and dries the evaporator and then turns off automatically.

Auto Restart:

The unit will automatically start back up at the latest setting following a power failure.

An Easy-to-Own HVAC Unit—By Design

With a time-saving design for easier maintenance and unique features that promote efficiency and ease of use, the Midea DLFSHA Ductless High Wall is the **ultimate in flexibility and in-home comfort.**
