

AIRQUEST® GAS FURNACES

Airquest® Gas Furnaces. For Value. For Comfort. For Life.

The Next Generation Of Comfort

With the introduction of the new Airquest® 96%+ AFUE† models, we now offer our most innovative, energy-efficient gas furnace line yet. Small in stature but big on efficiency, these units earn energy efficiency ratings as high as 97% AFUE.

Designed to deliver continuous comfort with maximum energy savings, our modulating, two-stage and variable-speed communicating models adjust precisely to your needs. The variable-speed circulation motor can reduce electricity consumption by 50% compared to a conventional motor. It also saves energy in warm weather, when paired with your central air conditioner to circulate cool air.

Select Airquest gas furnaces feature our new Observer™ communicating system. When paired with our new Observer communicating wall control, these models create ideal indoor comfort with maximum energy savings.

†AFUE stands for Annual Fuel Utilization Efficiency.

These Airquest 96% & 97% AFUE gas furnaces offer the following quality features:

- Energy-saving 96% & 97% AFUE ratings provide a significant boost in efficiency over older furnaces
- RPJ® (Rigid Press Joint) heat exchanger features weld-free construction
- Direct hot surface ignition system features an advanced silicon nitride igniter for greater reliability
- Solid doors and sturdy, insulated steel cabinet reduce operating sound
- Optional direct vent mode uses clean outdoor air for combustion
- Installation flexibility: Compact 35" multi-position cabinet
- California low NOx models available for most applications

Additional features allow you to customize your comfort:

VC 97 (97% AFUE) Variable-Speed Modulating Gas Furnace Featuring The Observer™ Communicating System

- Observer™ communicating system
- Variable-speed, high efficiency ECM circulating blower motor
- Stainless steel RPJ heat exchanger
- 10 year No Hassle Replacement™ limited warranty
- Lifetime heat exchanger limited warranty with timely registration
- 10 year parts limited warranty with timely registration

VT 96 (96% AFUE) Variable-Speed Two-Stage Gas Furnace Featuring The Observer™ Communicating System

- Observer™ communicating system
- Variable-speed, high efficiency ECM circulating blower motor
- Stainless steel RPJ heat exchanger
- 10 year No Hassle Replacement™ limited warranty
- Lifetime heat exchanger limited warranty with timely registration
- 10 year parts limited warranty with timely registration

IIX 96 (96% AFUE) Two-Stage Gas Furnace

- High efficiency ECM circulating blower motor
- Aluminized steel RPJ heat exchanger
- 5 year No Hassle Replacement™ limited warranty
- Lifetime heat exchanger limited warranty with timely registration
- 10 year parts limited warranty with timely registration

DLX 96 (96% AFUE) Gas Furnace

- High efficiency ECM circulating blower motor
- Aluminized steel RPJ heat exchanger
- 1 year No Hassle Replacement™ limited warranty
- Lifetime heat exchanger limited warranty with timely registration
- 10 year parts limited warranty with timely registration

These additional gas furnaces are available for special applications

PS95 (95% AFUE) & PS92 (92% AFUE)

- Energy-saving 95% & 92% AFUE ratings
- Induced draft blower assembly, gas valve, control board
- Thermal-lined heat exchanger compartment
- Installation flexibility: Compact 35" multi-position cabinet
- Durable PSC circulation blower motor
- 20 year heat exchanger limited warranty
- 10 year parts limited warranty with timely registration

These Airstream 80% AFUE gas furnaces offer the following quality features:

- Energy-saving 80% AFUE
- RPJ® (Rigid Press Joint) heat exchanger features weld-free construction
- Direct hot surface ignition system features an advanced silicon nitride igniter for greater reliability
- Unique double-wall door and sturdy, insulated steel cabinet reduce operating sound
- Optional chimney venting kit
- Installation flexibility: Compact 33 1/8" multi-position cabinet
- California low NOx models available for most applications

Additional features allow you to customize your comfort:

VS 80 Variable-Speed Two-Stage Gas Furnace Featuring The Observer™ Communicating System

- Observer™ communicating system
- Variable-speed, high efficiency ECM circulating blower motor
- Aluminized steel RPJ heat exchanger
- 10 year No Hassle Replacement™ limited warranty
- 20 year heat exchanger limited warranty
- 10 year parts limited warranty with timely registration

IIS 80 Two-Stage Gas Furnace

- Durable PSC circulation blower motor
- Aluminized steel RPJ heat exchanger
- 5 year No Hassle Replacement™ limited warranty
- 20 year heat exchanger limited warranty
- 10 year parts limited warranty with timely registration

XS 80 Single-Stage Gas Furnace

- High efficiency ECM circulating blower motor
- Aluminized steel RPJ heat exchanger
- 1 year No Hassle Replacement™ limited warranty
- 20 year heat exchanger limited warranty
- 10 year parts limited warranty with timely registration

Warranties To Ease Your Mind

Timely registration required. See warranty certificate for details.

Airstream units are backed by exceptional warranties, including our No Hassle Replacement™ limited warranty, which gives the original purchaser a replacement unit if the heat exchanger should fail due to defect within the covered period. Upon timely registration, you also get a 10 year parts limited warranty and either a lifetime limited warranty or a 20 year limited warranty on the heat exchanger, depending upon the model.*

*Limited warranty period is 5 years for parts and 20 years for heat exchanger if not registered within 90 days of installation. Jurisdictions where warranty benefits cannot be conditioned on registration will receive the registered limited warranty periods. Please see warranty certificate for further details and restrictions.
