

A SIMPLER WAY TO CREATE CUSTOMIZED SUBMITTALS:

Online Equipment Selection Program!

Use the **Equipment Selection Program** website to create submittals for engineers, code officials, builders or property owners or to quickly configure a unit for quoting purposes. It guides you through the process of selecting the right equipment for every application, based on the criteria you enter, matching the best products, factory installed options and correct accessories for every job.

Plus you can create a **complete professional presentation** in PDF or Word format with a customized appearance (left). Then you can print, email or save order lists to be used or revised at a later date, which allows you to provide engineers as many copies as they need without any hassle. You can also generate equipment schedules in Microsoft® Excel® format.

Rooftop Energy Savings Calculator

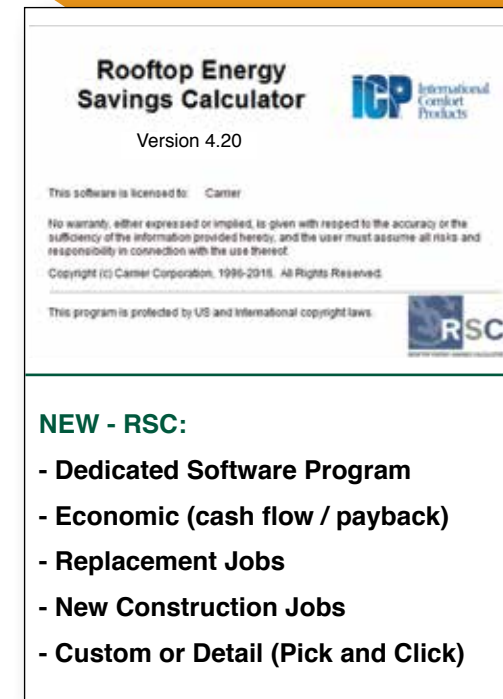

- Compare energy costs and payback performance of rooftop equipment. Preloaded with the most commonly called out competitor models.
- For replacement applications
 - Evaluate the energy cost savings and payback of replacing old, inefficient equipment
- For new construction applications
 - Helps evaluate the energy cost and payback performance of standard vs. high-efficiency equipment or competitor equipment
- Available on HVACPartners under “Products and Solutions”
- It's **FREE!** - Available on the GoSite with your Dealer Login

- Simple inputs
- Auto-populates if replacement or new construction
- Simulates 8 building types
- Pulls current energy data – no guessing
- Uses Hourly Analysis Program (HAP) calculation engine
- Intuitive help screens

Calculates Professional Reports:

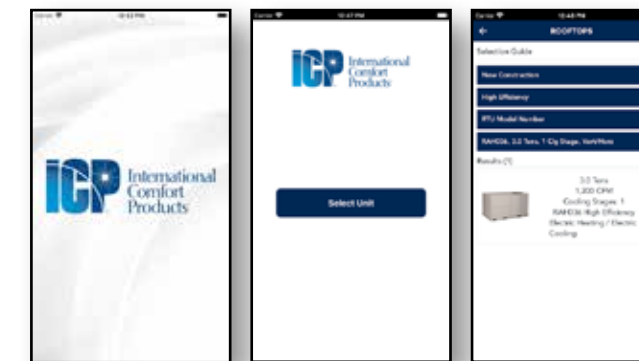

- Payback Period
- Maintenance, Repair Costs
- Total Energy Savings
- Graphic Displays
- Detailed Energy Savings:
 - Fan
 - Cooling
 - Heating
- Savings After Payback Period

Get the ICP® RTU Mobile App on Your Smartphone

The ICP® Rooftops app allows users to perform on the spot selection of HVAC rooftop units for both replacement and new construction, and estimate energy savings between ICP® Standard and High-Efficiency units. Users can input an existing unit model number for Day & Night or competitive equipment, or desired unit specifications, and obtain the optimal Day & Night model for their requirements.

- Provides size, weight, base electrical data
- Select units by model, size, or CFM

Available on:
 Apple® iOS 13.0 and above
 Android™ 4.4 and above
 Smartphones and Tablets
