

14 SEER R-410A PACKAGE GAS / ELECTRIC UNIT 23 to 58 MBTU/h

Two-Stage Gas Heating/Two-Stage Electric Cooling

REFRIGERATION CIRCUIT

- All models are equipped with high efficiency two-stage Copeland UltraTech scroll compressor.
- Thermostatic Expansion Valve (TXV) on select models to control refrigerant flow.
- Variable Speed GE ECM 2.3 indoor motor with electronic speed controller on all models.
- High and Low Pressure Switches for excellent compressor protection.

BUILT TO LAST

- Stainless Steel tubular heat exchanger.
- Galvanized-painted cabinet. One piece weather resistant top. Access panels for easy service. Side by side supply and return. Heavy gauge base rails.
- Triple-coated steel, consisting of a Polyester top coat, a urethane primer coat preceded by an oxide pretreatment.
- Integral base rails with fork-lift access on three sides. Holes provided for lifting lugs makes rooftop installation easier.
- The condenser coil has a sturdy wire inlet grille and UV rated vinyl mesh installed on the surface of the coil for additional protection.
- Advanced Air Management System for quieter operation.
- Two-speed PSC combustion air blower with ball bearings.

EASY TO INSTALL AND SERVICE

- Combination gas heating and electric cooling, self contained for year-round comfort. Systems install on rooftop or ground level. The unit is shipped in the horizontal position and can easily be converted to downflow.
- Externally-mounted gauge ports allow for more accurate reading of operating conditions while servicing.
- Electrical and gas controls located behind one exterior panel for easier maintenance.
- Adjustable electronic fan control with optional low speed continuous fan feature responds quickly to circulate conditioned air and provide maximum comfort.
- Dehumidification mode in cooling.
- Comfort Alert™ UltraTech™ Diagnostics device on all models.

WARRANTY

- 7 year No Hassle replacement limited warranty
- Lifetime Heat Exchanger limited warranty
- 10 year compressor limited warranty
- 7 year coil limited warranty
- 5 year parts limited warranty

This product has been designed and manufactured to meet ENERGY STAR criteria for energy efficiency. However, proper refrigerant charge and proper air flow are critical to achieve rated capacity and efficiency. Installation of this product should follow the manufacturer's refrigerant charging and air flow instructions. Failure to confirm proper charge and airflow may reduce energy efficiency and shorten equipment life.

No hassle

REPLACEMENT WARRANTY
see warranty certificate for details

8

† Total capacities are net (I.D blower heat subtracted).

* System amps are total of indoor and outdoor amps

‡ S/T are based on 80° F db entering air at the coil. For sensible capacities at other than 80° F db, deduct 835 BTU/h per 1000 cfm of indoor coil air from (MBh x S/T) for each degree below 80° F, or add 835 BTU/h per 1000 cfm of indoor coil air to (MBh x S/T) for each degree above 80° F

†† At TVA rating indoor condition (75° F db/ 63° F wb), All other indoor air temperatures are at 80° F db

† Total capacities are net (I.D blower heat subtracted).

* System amps are total of indoor and outdoor amps

‡ S/T are based on 80° F db entering air at the indoor coil. For sensible capacities at other than 80° F db, deduct 835 BTU/h per 1000 cfm of indoor coil air from (MBh x S/T) for each degree below 80° F, or add 835 BTU/h per 1000 cfm of indoor coil air to (MBh x S/T) for each degree above 80° F

†† At TVA rating indoor condition (75° F db/ 63° F wb), All other indoor air temperatures are at 80° F db

ACCESSORIES

ECONOMIZERS (ALL FULLY MODULATING)*

Part Number	Application	Motion	Control	Use With Model Size
AXB020HED	Horizontal	Fully Modulating w/ Return Air Damper w/ Relief Damper	Enthalpy	24, 30
AXB030HED				36, 42, 48, 60
AXB020EMD	Downflow			24, 30
AXB030EME				36, 42, 48, 60
AXB020HPE	Horizontal	Fully Modulating w/ Return Air Damper w/ Relief Damper	Dry Bulb Only	24, 30
AXB030HPE				36, 42, 48, 60
AXB020EPE	Downflow			24, 30
AXB030EPF				36, 42, 48, 60

- * Three position economizers no longer available.
 Economizers for model sizes 24 & 30 include Filters and Filter Racks.
 Economizers for model sizes 36, 42, 48, and 60 do NOT include Filters (Filter Racks shipped with unit).

0% - 25% FRESH AIR DAMPERS (use in DOWNFLOW application only) *

Model Number	Control	Use With Model Size
AXB020FAC	Manual	24, 30
AXB030FAC		36, 42, 48, 60
AXB020FMC	Motorized	24, 30
AXB030FMC		36, 42, 48, 60

- * Unit must have internal filters to protect evaporator coil when Fresh Air Damper is installed.
 Model sizes 24 & 30 shipped WITHOUT Filter Racks or Filters.
 Model sizes 36, 42, 48, and 60 shipped WITH Internal Filter Racks, but WITHOUT Filters.

FILTER RACK and FILTER * inches (mm)

Model Number	Application	Filter Location	Filter Size	Use With Model Size
AXB020FKA	Downflow	Internal	18 x 25 x 1 (457 x 635 x 25)	24, 30
AXB020FHC	Horizontal	External	20 x 25 x 1 (508 x 635 x 25)	

- * Model sizes 24 & 30 shipped WITHOUT Filter Racks or Filters.
 Model sizes 36, 42, 48, and 60 shipped WITH Internal Filter Racks, but WITHOUT Filters.

GUIDE SPECIFICATIONS

CABINET

The cabinet is made of G-90 galvanized steel, phosphate coated with a tough acrylic finish coat for long lasting weatherproof construction. The base rails are 18 gauge steel with fork lift slots and holes provided for lifting shackles. The unit is designed with convertible airflow for either horizontal or downflow applications with conversion accomplished by relocating two panels. Indoor blower compartment interior cabinet surfaces are insulated with a minimum 3/4" thick, flexible glass insulation, coated on the air side. Aluminum foil faced glass fiber insulation is used in the furnace compartment.

COOLING SECTION

The unit is factory charged and operationally ready upon delivery. The unit refrigerant circuit has a high efficiency scroll compressor with internal overload protection, and copper tube / aluminum fin evaporator and condenser coils. The unit is designed for cooling operation to 40° F and will be capable of being wired for field installed economizer type accessories.

COILS

The evaporator and condenser coils are fabricated with aluminum fins mechanically bonded to copper tubing. Both coils are pressure tested prior to assembly into the unit and electronically leak tested after assembly into the unit.

CONDENSER FAN

The unit has a single direct-drive propeller-fan / motor assembly. The assembly is mounted directly to a vertical-discharge grille that is easily removed for service. Motors are 1100 RPM with sleeve or ball bearings and internal overload protection.

EVAPORATOR BLOWER

All units have a direct-drive high efficiency brushless DC evaporator blower motor as a standard. The direct-drive evaporator blower motor has sleeve bearings and internal overload protection.

HEATING SECTION

The gas-fired heating section features an induced draft blower for combustion air. The unit has an tubular stainless steel heat exchanger located on the discharge air side of the blower. The system uses in-shot burners ignited by a direct spark ignition system, protected by both a high heat limit switch and flame roll-out switch. The induced draft blower motor is interlocked with a proven air pressure safety device.
