COMFORT WITH CONFIDENCE

Choose Day & Night heating and cooling equipment so you can enjoy comfort with confidence. Our products deliver exceptional quality, reliability and energy efficiency, backed by time-tested engineering, leading-edge manufacturing, and 100% run testing of every unit we make.

WHAT MATTERS IN A GAS FURNACE?

ENERGY SAVINGS

AFUE (Annual Fuel Utilization Efficiency) measures the heating efficiency of a gas furnace. The higher the number, the greater the potential for energy savings. Performance Series furnaces offer a range from 80% up to 96% AFUE.

CONSISTENT COMFORT

To keep you comfortable, our efficient Performance Series gas furnaces operate with a single-stage operation and five-speed blower motor to provide even levels of temperature control.

DUAL-FUEL SYSTEM

To help manage unpredictable utility costs, combine a Performance furnace with a Day & Night heat pump and compatible thermostat. A dual-fuel system automatically switches between electric and gas heating to optimize the efficiency of each fuel source.

QUIET PERFORMANCE

Enjoy quiet system performance by selecting models with insulated cabinet components.

PEACE OF MIND

Rest easy with a 10-year parts and lifetime heat exchanger limited warranty* (on select models) upon timely registration.**

WHAT SETS DAY & NIGHT PERFORMANCE GAS FURNACES APART?

Reliable – Our hot surface ignition system features an advanced silicon nitride igniter and in-shot burners for reliable comfort you can count on.

System Control – State-of-the-art electronic controls monitor system operation and allow for faster, easier system diagnostics.

Quiet – Solid, pre-painted steel insulated cabinet with tight-fit door latch, isolated blower motor, and soft-mount rubber gaskets on key components contribute to quieter operation.

Safety – Temperature limit control, reliable gas valve and induced draft motor all promote safe operation.

Efficiency – Performance Series furnaces include ECM fan motors to provide exceptional efficiency. When matched with a Day & Night air conditioner or heat pump and a humidity-sensing thermostat, our furnaces can provide the potential for additional energy savings.

N80 Gas Furnace

COMPONENTS OF A COMPLETE DAY & NIGHT SYSTEM

We offer a complete family of products designed to provide year-round comfort, control and efficiency. Your Day & Night dealer can help create a properly matched system to best fit your needs and your budget.

Thermostats

Wi-Fi®-enabled smart thermostat learns your schedule for greater efficiency and comfort.

Air Conditioners

Provides efficient cooling for comfort and potential energy savings.

Heat Pumps

Provides efficient cooling/heating for comfort and potential energy savings

Evaporator Coils

Matches to the proper outdoor unit to provide more cooling efficiency and years of reliable service.

DAY & NIGHT GAS FURNACES

Day & Night gas furnaces can elevate your comfort when the temperature drops outside. From the fully-featured Ion® communicating system to our more budget-friendly options, Day & Night furnaces include features like modulating gas valves, variable-speed fan motors, and sound-reducing insulated blower compartments. Day & Night has a furnace solution for every home.
