

TEMPSTAR DUCTLESS

HELPING DEALERS EXCEED CUSTOMER EXPECTATIONS EVERY TIME

PRODUCT FAMILY
BROCHURE

WHY TEMPSTAR?

Our ductless solutions allow you to provide efficiency, performance and innovation—all in a feature-rich system.

HIGH EFFICIENCY

With efficiency ratings of up to 27.0 SEER2 and 17.5 HSPF2 and ENERGY STAR® certifications on several ductless models, our Tempstar® ductless systems provide improved temperature regulation and increased energy and cost savings.

QUALITY PERFORMANCE

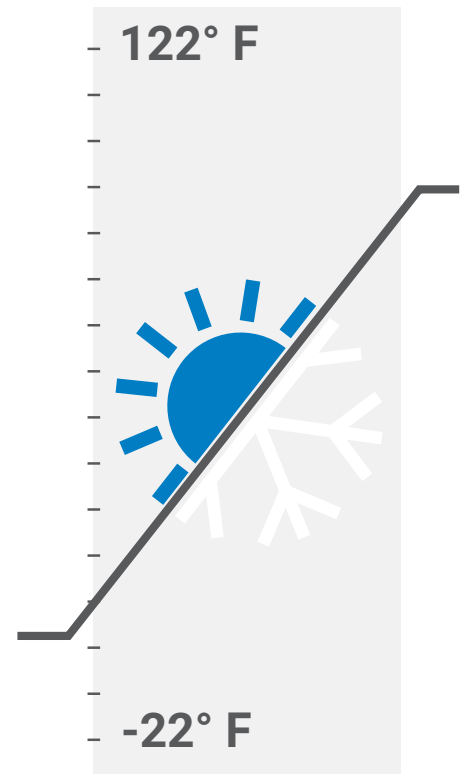

Our solutions deliver quality performance across a broad range of temperatures for year-round comfort control. Our ductless systems can heat in temperatures as low as -22° F and cool in those as high as 122° F.

COOL INNOVATION

Our constant innovation allows us to create high-performing ductless solutions that keep all users in mind. Customers can enjoy personalized control and reliability with individual remote controls and the Midea Air App for a full home or single room.

The Midea Air App is available from the App Store® and Google Play.™ Features are intuitive and easy to navigate.

We're Here to Support You and Your Customers

At Tempstar, we understand that your customers expect more comfort, control and performance from their HVAC system. We are committed to providing you with what you need to be successful and exceed these expectations, every time.

No matter the challenge, no matter the space, Tempstar ductless is the HVAC solution your customers have been looking for.

Visit the [Tempstar Rebate Center](#) to see eligible products and incentives for your area.

PROVIDE MORE VALUE WITH DUCTLESS

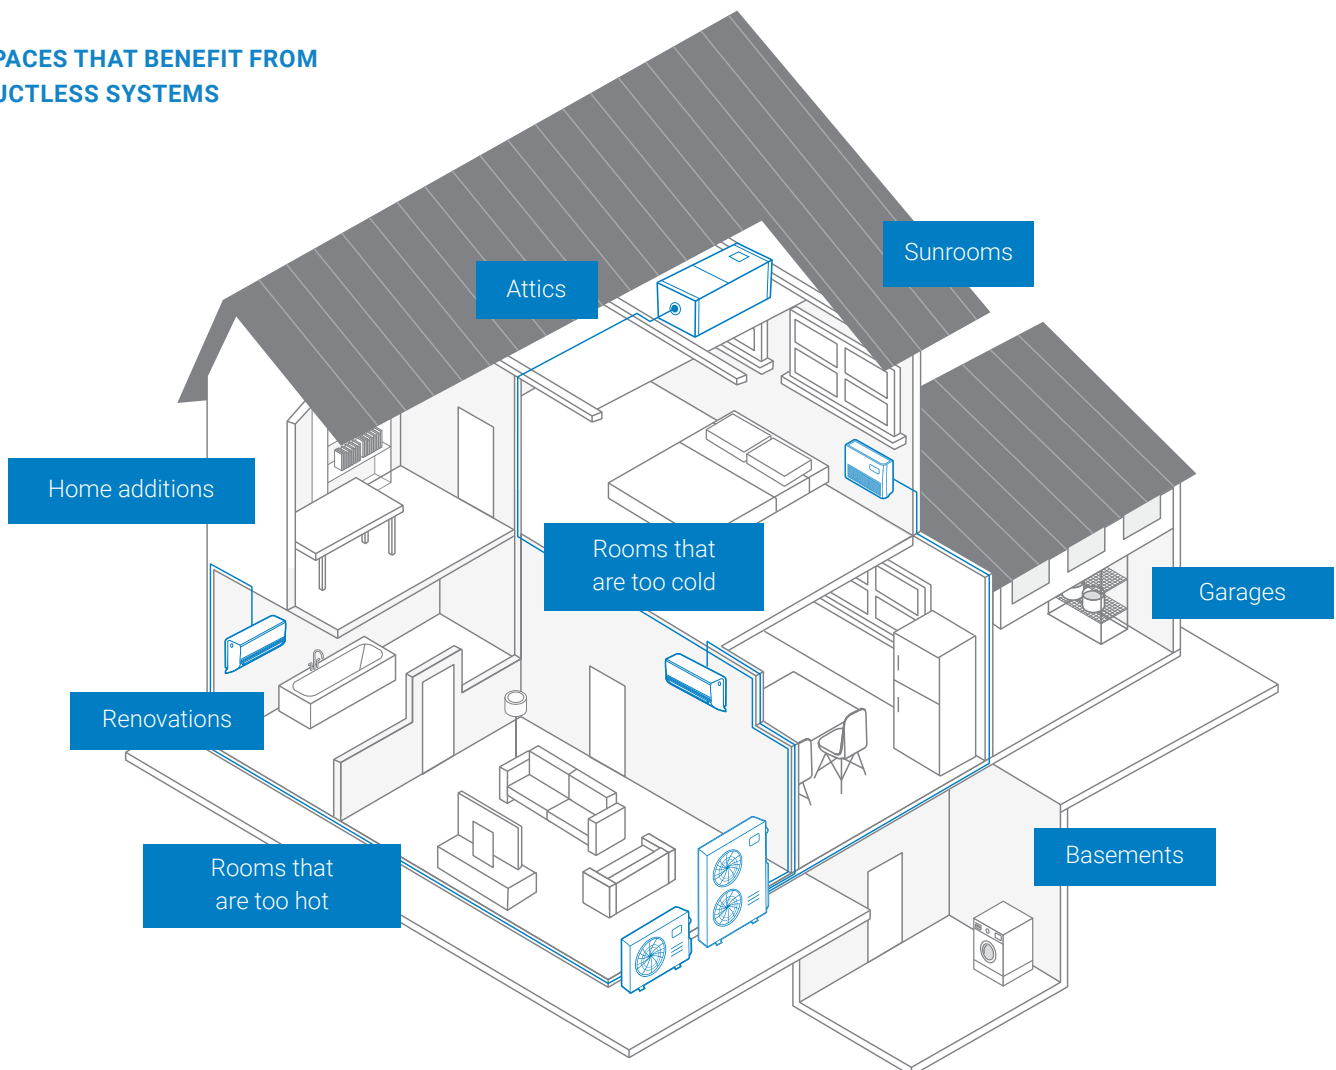

To help you stay competitive and successful, Tempstar offers a family of flexible ductless solutions that fit a range of needs. Extremely efficient and high-performing, these systems help solve your customers' biggest heating and cooling challenges.

Versatile HVAC Systems for Endless Comfort Possibilities

Ductless systems are unique, generating climate-controlled air without the use of traditional ductwork. Compact and sleek, they can be used in single or multiple zones to create endless possibilities for personalized HVAC systems.

Ductless indoor units integrate neatly into a space. They're installed in the least obtrusive but most effective area to quietly direct air to every corner of the room. And the indoor unit(s) simply connects to the outdoor unit with a hidden conduit.

SPACES THAT BENEFIT FROM DUCTLESS SYSTEMS

**SINGLE ZONE
RESIDENTIAL**

DELUXE SERIES

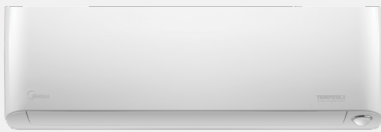

9-18k BTUh

Up to
27.0 SEER2

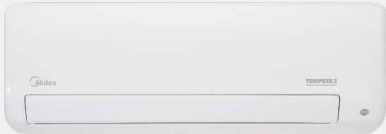

Up to
17.5 HSPF2

DL CPRB Outdoor Unit
SIZES: 09/12/18

DL FPHB High Wall
SIZES: 09/12

DL FPHB High Wall
SIZE: 18

KEY FEATURES

- + ENERGY STAR® certification
- + Built-in occupancy sensor
- + Optional Wi-Fi® for smart phone control
- + Humidity control
- + High-heating capability
- + Built-in basepan heater
- + 24V Interface Kit compatibility

PERFORMANCE SERIES

9-36k BTUh

Up to
21.7 SEER2

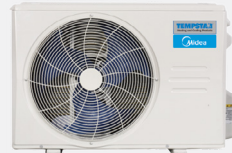

Up to
9.4 HSPF2

DL CERBH Outdoor Unit
Heat Pump
SIZES: 09/12/18/24/30/36

DL FEHBH High Wall
Heat Pump
SIZES: 09/12/18/24/30/36

DL CERCA Outdoor Unit
Cooling Only
SIZES: 09/12/18/24

DL FEHBA High Wall
Cooling Only
SIZES: 09/12/18/24

KEY FEATURES

- + Cooling only and heat pump
- + Simplified maintenance
- + Optional Wi-Fi® for smart phone control
- + Advanced service features
- + Built-in basepan heater
- + 24V Interface Kit compatibility

**SINGLE ZONE
RESIDENTIAL**
