

Tempstar® Ultra-Low NOx Packaged Heating & Cooling Systems

BUILT WITH STRENGTH

When you choose Tempstar heating and cooling equipment, it means your home comfort is backed by superior engineering and quality manufacturing so you can enjoy more important things. Each unit is 100% run tested, and we design our products to give you exceptional quality, energy efficiency and reliability. We deliver products that give you the most in home comfort so you can enjoy comfort with confidence.

BACKED BY EXCEPTIONAL WARRANTIES

Every Tempstar product is backed by an up to 10-year parts and compressor limited warranty so you'll have peace of mind.**

Timely registration required.
See warranty certificate for details
and restrictions.

WHAT IS A PACKAGED SYSTEM?

Tempstar packaged all-in-one units are designed for durability and comfort. The units stay enclosed outside or on a roof and come in a variety of combinations: dual-fuel gas furnace/heat pump, gas furnace/air conditioner (includes ultra-low NOx models), electric heat pump and electric air conditioner.

Heating and Cooling Products
Quality you can feel.

WHAT MATTERS IN A PACKAGED SYSTEM?

Get the most out of a packaged system by choosing the product that fits your comfort needs. All of our packaged products include comfort enhancing and durable features to deliver lasting performance. For the ultimate of comfort, look for modulating and two-stage heating or cooling operation as well as multi- and two-speed blower motors. Our QuietComfort units feature hail guard wire grilles, tin-plated copper evaporator coil tubing, and stainless steel heat exchangers (in gas heating units). Tempstar packaged units offer energy efficiency, increased comfort, durable performance and quiet operation.

Standard Model

WHAT SETS TEMPSTAR PACKAGED UNITS APART?

1. Copper/aluminum coils and quality copper tubing.
2. High-pressure switch to protect system.
3. ECM indoor blower motor provides efficient airflow.
4. Control panels allow for quicker, easier service access.
5. Rugged pre-painted steel cabinet, full perimeter metal-base rails, and wire grilles to protect the coil.

THE BENEFITS OF REDUCED NO_x EMISSIONS

Our ultra-low NO_x packaged units are designed for California residents in the South Coast Air Quality Management District and San Joaquin Air Pollution Control District looking for a heating solution that limits NO_x emissions to 14 nanograms per joule. Thanks to our special pre-mix burner design, these 81% AFUE packaged units reliably heat your home while significantly reducing emissions that contribute to smog, acid rain, water quality deterioration and more. They are the perfect solution for the environmentally aware homeowner.

* See limited warranty certificate for complete details and exclusions.

** To the original owner, Tempstar products are covered by a 10-year parts limited warranty upon timely registration. The limited warranty period is five years if not registered within 90 days of installation except in jurisdictions where warranty benefits cannot be conditioned upon registration. See warranty certificate for complete details.

All systems tested and listed by the appropriate agencies.
