

 <b>2.000</b> kW AC	 <b>600</b> kW 20/75°C Heating	 <b>750</b> kW 25/50°C Heating
--	---	---

## Oslo, Norway

Installed in Q2 2021

Building 58,500 m<sup>2</sup> AC and heating for exclusive shops, high-end offices and parking facilities

## Equipment

2

Power CO<sub>2</sub>OL

Modulating ejector

Flooded MT / LT

Hot water

Heat reclaim  
2 temp levels

AC chiller

## Integration in environmentally sustainable building

### Energy consumption :

COP > 4 for air conditioning and 5 on heating mode.  
 Heat used tap water + air / floor heating, snow melting...  
 Combination of AC and heating mode at the same time

Sustainable, low GWP refrigerant solution
