TRU Status Light

High Visibility Indicator of TRU System Operation

Features and Benefits

- Driver and yard friendly
  - Circular white LED light pattern indicates normal TRU operation
  - Triangular amber LED light indicates alarm on TRU controller display
  - Auto-dimming feature increases brightness in direct sunlight, snow, and on white or reflective backgrounds
  - Dims at night for less glare and safer operation
- Robust design
  - Meets water protection IP67 rating
  - Environmentally-sealed electronics
  - Compact housing and lens design with UV protection
- TRU Compatibility
  - Carrier APX™, Advance™ and Summit controllers
  - Thermo King® SR (up to and including SR-4) controllers
- Separate installation mounting options:
  - Full replacement of the legacy Carrier LED Light Bar (requires kit 76-02150-00)
  - Replacement of the legacy LED light bar, retaining the existing L-bracket (requires kit 76-02150-01)
  - New installation on Trailer recess corner (requires kit 76-02150-01)
- Covered by one-year limited parts warranty
- Carrier® Transicold® patented design
- Available at your local Carrier Transicold Dealer
