**Just the power
you need**

Carrier
TRANSICOLD

XARIOS RANGE: BASED ON A NEW DESIGN, EFFICIENCY COMES AS A STANDARD, JUST SELECT THE POWER YOU NEED

When transporting fresh and frozen goods, success means having the power you need to ensure consistent and optimal performance while limiting your operating costs and respecting the environment.

XARIOS 8: A NEW MODEL IN THE RANGE UP TO 50M³

The Xarios 8 is the newest and most powerful Carrier Transcold unit ever made in the range, which combines cutting-edge, aesthetic design and technological innovation to offer maximum, efficient refrigeration for light commercial vehicles & medium duty trucks up to 50m³.

XARIOS 5 & 6

Building on the innovation and technological advancement of the new Xarios 8, Carrier Transcold presents Xarios 5 & 6, formerly Xarios 500 & 600. Both versatile and high capacity, these units are available in single or multiple temperature⁽³⁾ versions to accommodate your specific needs.

XARIOS 5

XARIOS 6

A reduced environmental impact

The new Xarios 8 and the new models of Xarios 5 and 6 reduce their impact on the environment making them an optimal solution for urban distribution.

- No engine emissions
- R452A refrigerant and limited refrigerant quantity for a result of up to -40%⁽⁴⁾ GWP
- Suitable to access Low Emission Zones
- Suitable with vehicles running with natural gas vehicle.

⁽³⁾ Available end of 2021

⁽⁴⁾ in comparison between the Xarios 8 and an equivalent diesel refrigeration unit.
