UN 3091

- -

1 - Print this label in color. The hatched border must appear in red.

2 - Ensure the red border in the label is at least 100mm (3 .9 in) wide by 100mm (3.9 in) high when printed. We have conveniently sized the label for you in this document, but please be sure to check as the actual printed size may vary depending on your printer or print settings.

3 - Securely pack the items. Use strong rigid outside packaging. It is your responsibility to ensure that your item is packed in accordance with IATA packaging instructions (PI 970 Section II).

4 - Attach the label to the outside of your box on the same side as the shipping label. If you are reusing packaging, you must remove old labels and markings.

If the return shipment contains TempTale GEO, TempTale RF or TempTale GEO XE and GEO XEP devices UN3091 label is required.

Devices with Alkaline batteries and Lithium Button Cell batteries do not require UN3091 label

For shipping guidelines, and overview of type of batteries contained in the devices you are planning to return refer to the link below relating to Lithium Batteries - CSB 99
