

INTEGRATED RANGE

**THE INTEGRATED RANGE
FOR ANY ROAD**

Carrier
TRANSICOLD

Xarios 150 Integrated / 200 Integrated

The all-in-one Xarios integrated unit for light commercial vehicles is the compact and invisible solution that allows you to access any city center, narrow road and scarce parking spaces. This undermount solution is also ideal for quiet deliveries thanks to its "E-Drive™" all-electric technology, providing constant cooling.

Integrated compressor and condenser under the chassis in the spare wheel area

Evaporator integrated in the roof insulation

E-Drive technology for constant refrigeration

All-electric solution

KEY BENEFITS

No wind resistance*

* Reduces impact on vehicle consumption

Discreet

Preserve your vehicle aesthetics

Ideal for narrow roads and parking spaces

Quiet solution

Installation time & serviceability

Wide range of vehicles
Thanks to its compact design allowing easy adaptation*

* Refer to your local reseller to study feasibility

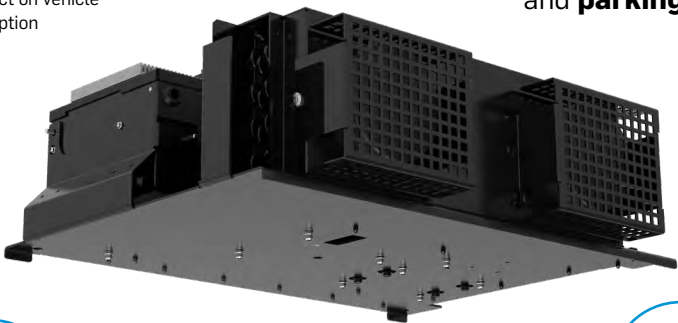

E-Drive technology featured

Reduced source of leaks, less need for maintenance

Maximized payload

Compared to conventional solutions that requires a lowered roof

Unit	On vehicle's battery		On standby mode		Refrigerant	Evaporator airflow (m³/h)	Total weight unit + evaporator (kg)
	Test point (°C)	Refrigeration capacity (W)	Test point (°C)	Refrigeration capacity (W)			
Xarios 150 Integrated Evaporator MXS600	0	1006	0	1019	R452A	710	64
	-20	326	-20	334			
Xarios 200 Integrated Evaporator MXS850	0	1086	0	1086	R452A	787	69
	-20	378	-20	378			

The integrated range is the ideal solution for all city deliveries with narrow roads or underground parking. Compact, discreet and silent, it is mounted under the vehicle and offers a wide range of power. Because of its integrated anatomy, there is no required modification of the structure or height of the vehicle providing maximized loading capacity.

CONNECTED COLD CHAIN SOLUTIONS

Lynx™ Fleet helps Carrier customers to optimize cold chain operations, decrease energy use and enhance outcomes with reduced costs, delays, cargo loss and spoilage in transit. By enhancing visibility, resiliency, agility and efficiency in the cold chain, the cloud-connected Lynx™ digital platform helps reduce loss and supports real-time decisions, ensuring foods and vital medications safely reach people who need them around the world.

DELIVERING CUSTOMER SUPPORT WITH CONFIDENCE

More than 600 service centers

With over 600 locations throughout Europe, Middle East, Africa & Russia, Carrier Transicold EMEA provides customers with a large refrigerated truck and trailer service network.

More than 2,200 technicians

We place a great focus on technical training and spare parts supply, and have developed our PACE (Performance Assessment & Competitive Excellence) program to ensure speed and quality of response go hand in hand.

A full service maintenance agreement

With a BluEdge maintenance agreement, you can be confident in receiving the optimum level of product support to help keep your fleet operating efficiently and effectively.
