

# Auxiliary Liftgate Battery Charger Kit for Vector™ 8000 Series Units

## Product Features and Benefits:

- Dedicated auxiliary charger recharges liftgate batteries and maximizes liftgate operation time
- 40 Amp, 12 Volt system
- Independent from TRU battery charging ensuring optimal amperage from the primary battery charger to the reefer battery
- Provides additional battery protection to auxiliary loads when wired into the liftgate battery
- 65-foot 6 AWG cable included, connects the auxiliary battery charger to liftgate battery
- Backed by Carrier Transicold's authorized and factory trained North American dealer network
- 1-year limited parts warranty
