

Protective Bumpers

Safeguard Your Investment

A wide selection of protective bumpers from Carrier® Transicold® will keep your equipment looking good and help guard against costly damage that can occur when trailers or containers are being moved, staged, or stacked.

Several different configurations available:

- Upper impact protection
- Lower impact protection
- Intermodal impact protection

Features Include:

- Powder coat painted, high-strength tubular steel construction
- TRU protection with minimal effect on service access or trailer swing radius
- Easy installation: fits X4™ and Vector™ trailer units
- Parts manufactured for years of durable service and protection
- Readily available at your local Carrier® Transicold® Dealer
