

GREATER REFRIGERATED CARGO INSIGHTS. **GREATER CONFIDENCE.**

Carrier Transicold's Lynx™ Fleet telematics solution intelligently monitors your connected container refrigeration systems from anywhere in the world, giving you all the vital information and improved visibility you need to efficiently manage your fleet.

Connect to Lynx Fleet for 24/7 access to a wealth of real-time data:

**Carrier-exclusive
Reefer Health Index**
with prognostics and
diagnostics, empowering
fleet managers to download
diagnostic information
about their equipment

Mixed Fleet Support,
which allows for a
unified view of all assets
comprising both Carrier
and other container
refrigeration units on a
single platform

Notifications and alarms
that are managed by
exception, providing
fleet managers with full
visibility and analysis that
lead to timely data-driven
decision-making
