Your One-Stop Shop for Container Parts

We're all familiar with the nature of container parts: high-turnover, single-use products that serve specialized needs for routine maintenance or product protection. But what sets Carrier Transicold's container parts program apart from its competitors around the world? First and foremost, we know it's important to keep the supply of these products readily available, no matter where you're traveling to and from, allowing you to maintain your Carrier and competitive equipment regularly and protect it consistently. We offer the largest selection of container parts items for the container refrigeration industry available from a single supplier.

No Matter What

We believe when you're prepared, potential emergencies become nothing more than minor hurdles to overcome. With Carrier, we test and qualify every product so our customers can be assured of the quality they are used to from Carrier. Our global purchasing reach helps assure the best pricing and quality, a combination that isn't found with "gray market" products, which typically vary from region to region. So, whether your journey is just beginning or you have thousands of miles ahead, dawn or dusk, we have the consumables you need to keep your equipment in prime working order.

No Matter Where

From Anaheim to Singapore, we know cost control is crucial. Our "global list price" structure covers the most in-demand container parts products and provides standardized discounts based on volume sales, giving you a peace of mind that comes with predictable pricing around the world. No need to worry about fluctuating rates—our price points are standardized, whatever the continent, country or city.

No Matter When

At Carrier, we're here to help. We're in more locations in all the regions than our closest competitor or than any gray market competitor. Our more than 400 service centers and 14 parts warehouses stock more than 10,000 different parts worldwide, ensuring whatever you may need is right at your fingertips. As the largest container refrigeration service and parts network in the world, we're not about to let you down. From coils to plugs, we offer the **Global Guarantee** of consistent availability, pricing, quality, reliability and warranty support to not just help get you from Point A to Point B, but to get you there confidently and carefully.

For customer care and support, please refer to the back cover of this catalog for contact details, or visit www.carrier.com/container-parts, where you can also view the latest version of this catalog.

Cables and Extensions

Key Features

- Available in standard and custom lengths
- Ask your local sales representative for more information about customized cable products
- Good chemical resistance
- High resistance against environmental factors (ozone, UV, humidity, water, salt, etc.)
- Meets the IEC 60332-1-2 flame test
- UL Listed

	Part #	Description	Pack Length	Remarks
Power Cable	22-01879-73	Cable, 8WG, 8x8mm, 460 V black	310 m (1020 ft)	
	22-66654-20 22-66654-00	Cable, 10 AWG, 5x5mm, 460 V yellow	310 m (1020 ft)	-20 for Asia/Oceania -00 for America/EMEA
	22-66651-20 22-66651-00	Cable, 11 AWG, 4x4mm, 460 V yellow	309 m (1015 ft)	-20 for Asia/Oceania -00 for America/EMEA
Extension	22-50400-00 22-50432-01 22-50432-02	Extensions, 10 AWG, 5x5mm, 460V plug	20 m (67 ft) 10 m (33 ft) 3 m (10 ft)	
	22-50402-00 22-50402-01 22-50402-02 22-50402-03	Extensions, 11 AWG, 4x4mm, 460V plug	20 m (67 ft) 3 m (10 ft) 10 m (33 ft) 30 m (99 ft)	
Cable Assembly	22-50401-00	Cable assembly, 11 AWG, 4x4mm, 460V plug, 32A, 4 ph, 3hr	20 m (67 ft)	
	22-50399-00	Cable assembly, 10AWG, 5x5mm, 460V plug, 32A, 4 ph, 3hr	20 m (67 ft)

Power Plugs

We qualify and help ensure our power plug functionality and durability, which are essential to continuous trouble-free operations.

Our plugs are known for their functionality and durability—two important traits for consumable items.

During manufacture, a two-component molding process ensures the gasket becomes an integral part of the body or the lid. The gasket does not loosen or become damaged even with repeated use.

Key Features

- Screw terminals
- Highly heat-resistant contact carrier
- Nickel-plated contacts
- Single body part and cable gland and sealing
- Strain relief and protection against kinking
- Protection type IP 67 (waterproof)
- Multiple certificates like ISO, Lloyd's Register and VDE for many plugs*

Power Plug

460V, 32A, 3ph
Part # 22-02378-00PK10

22-50396-00PK5 22-50396-00PK25	Splice kit for 10AWG (5x5mm) and 11 AWG (4x4mm) cable Includes connector, cable knife, cold shrink tube, hex key, waterproofing tape, paper—cleaning tissue	5 25
22-50397-00	Splice kit without filler Includes cold shrink tube, butt splice, electrical tape, mastic tape	10
22-50398-00	Splice kit with filler Includes cold shrink tube, butt splice, electrical tape, mastic tape, filler	10
66-U---1--3803	Hot shrink tube, ¼ inch x 2.12	10
66-U---1--3803-1	Hot shrink tube, ½ inch x 2.75	10

Splice Kit

We continuously improve our splice kits to help ensure easy and hassle—free installation, wherever and whenever you need them.

Key Features

- UV resistant and CE certified
- Operation temperatures from -60 to 200° C and installation temperatures from -40 to 50° C
- Keeps water out of splices, even on thin cables
- Patented two-way pull, allowing for use on larger diameter cables (OD 11—26mm)
- Shrinks without use of heat in any conditions (ratio 3:1)
- Voltage rating: 600V, current rating: 32A

Condenser Coils

When our premium coil may be more than you need – you now have a quality alternative.

Value-Priced

- Ensures that all of your refrigeration units are running at peak efficiency—no matter their age
- Offers high performance with unique durability specifications
- Select Line parts maintain the performance of your older equipment while reducing repair and maintenance costs

Factory-Backed

- Designed and built by Carrier Transicold to OEM specifications
- Select Line parts carry a limited warranty through our global parts network

Carrier Select Line vs. Conventional Rebuilding

	Carrier	Most Rebuilders
Completely disassemble compressor	yes	no
Take time to inspect and assess rest of compressor	yes	no
Replace all critical wearing parts with brand-new, genuine Carrier Performance Parts™	yes	no
Rebore, hone or sleeve cylinder walls to original factory specs	yes	no
Rewind or replace outdated or damaged rotors and stators	yes	no
Completely overhaul and upgrade compressor to latest Carrier OE factory specs	yes	no
Utilize sophisticated equipment to conduct thorough electrical, leak, run-in and performance testing	yes	no
Chemically clean, degrease and paint compressor to guard against corrosion	yes	no
Perform random teardown analyses on completed compressors to ensure quality	yes	no
Includes One-Year Compressor Warranty	yes	no

Compressors

Looking for a truly cost-effective alternative to a new compressor? You've found one in Carrier Select Line™ Compressors. Because these are remanufactured – and not simply rebuilt – you get new compressor performance and reliability in a unit that will save you money. And not just today, but for years to come.

Part #	Description
18-00055-20RM2	06DR 2nd tier REMAN compressor, 460 V
18-00055-21RM2	06DR 2nd tier REMAN compressor, 230/460 V

Electronics

Value-Priced

Designed to meet your application needs, Select Line parts maintain the performance of your older equipment, while reducing repair and maintenance costs.

Factory-Backed

Select Line parts carry a limited warranty through our global parts network, so leave the risk of locally warrantied, reconditioned components behind.

Standard Options

Select Line parts are built with your requirements for quality and value in mind.

Benefits

18-months global parts warranty

Through our network

No core charges

Meets OEM performance specifications

Tested in demanding reefer applications

For use in out-of-warranty equipment

For a **Solid** Bottom Line.

Carrier Transcold offers global access to expert electronics rebuild service

Carrier Transcold's electronic components are designed for reliability and long life but when replacements are necessary, Carrier's Electronics Board Repair Service (EBRS) assures customers will receive high-quality electronic parts quickly and economically. The operation is dedicated to diagnosing, repairing and in some cases, upgrading complex refrigeration unit controls and other electronic components, thus giving them a second life.

The EBRS operation, which has three locations for global support, helps to ensure quick turnaround time and keep Carrier Transcold's 14 strategically located depots stocked with refurbished electronic parts to ensure availability—even for older, legacy systems.

Whether the customer needs a replacement microprocessor module, a display assembly or keypad, **EBRS provides the option of a refurbished component in exchange for the customer part** at a significantly lower cost than a factory-new equivalent.

In addition to the savings, customers can have a high degree of confidence in the refurbished parts, which carry the same warranty as factory-new components.

Please send inquiries to EBRS.RTM@carrier.utc.com

Controllers

Halide Leak Detector

Instantly locate non-combustible halide (CFC and HCFC) refrigerant gas leaks.

Key Features

- Includes probe hose valve assembly
- Leaks are located when the chlorine-based refrigerant gases are drawn in through the probe hose and exposed to a heated copper reaction plate, changing the blue flame to green
- The detector is very sensitive and can be used to locate leaks as small as 20 ppm of CFC and HCFC refrigerants
- Replacement Copper Reactor Plate (Part # 07-00259-20) also available

Please refer to tools catalog for more details.
www.carrier.com/container-parts

**Propane Halide Leak Detector
with Probe Hose Valve Assembly**

Part # 07-00259-00
 Pack Quantity: 1

Copper Reactor

Part # 07-00259-20
 (For use with Halide Leak Detector,
 Part # 07-00259-00)
 Pack Quantity: 1

Wrench Offset Refrigeration

For service valve stems offset
 Part # 07-00238-01
 Pack Quantity: 1

Wrench Refrigeration

For service valve stems
 Part # 07-00238-00
 Pack Quantity: 1

Rotary Vacuum Pump

Dual Voltage/Dual Frequency
 110-115/220-240 VAC
 Part # 07-00176-11
 Pack Quantity: 1

Thermometer

Pocket, -40° F to +125° F
Part # 07-00261-00
Pack Quantity: 1

Thermometer, Non-contact

Laser-guided sighting system for easy targeting, measurement range up to 600° C (1100° F)
Part # 07-00478-00
Pack Quantity: 1

Thermometer, Digital

Pocket, Degrees Fahrenheit
Part # 07-00485-00
Pack Quantity: 1

Pocket, Degrees Celsius
Part # 07-60111-00
Pack Quantity: 1

Digital Multimeter

Part # 07-00243-10
Pack Quantity: 1

Refrigerant Analyzer

R134a Purity
Part # 07-00518-00
Pack Quantity: 1

Diablo Refrigerant Recovery

115 Volt
Part # DIABLO-115V
Pack Quantity: 1

240 Volt
Part # DIABLO-240V
Pack Quantity: 1

Programmable Charging/Recovery Meter

Part # 07-00315-00

- Three display modes—lbs/oz; Decimal lbs; Kilograms
- Allows automatic charging or recovery operations
 - Color-coded keypad controls
 - Very high resolution—0.2oz/0.010lbs/4 grams
 - Can be used with all refrigerants
 - Advanced charge and recovery modes—uses tare weight and maximum capacity of cylinder to calculate maximum charge/recovery available
 - User programmable memory for up to 99 different stored values
 - “Repeat” charge features removable platform and control box with prop stand/hanging hook
 - Compact design—completely portable, battery-powered with low battery indicator

Part # 07-00529-00
CO₂ leak detector

Part # 07-00527-00
Complete gauge manifold set for CO₂ (R744) with hoses and Quick Couplers

Magnet, Operating Solenoid

Part # 07-00512-00
Pack Quantity: 1

Magnet, Container EXV

PrimeLINE®
Part # 14-00393-52
Pack Quantity: 1

Magnet, Container EXV

NaturaLINE®
Part # 14-00396-20
Pack Quantity: 1

Hose

Charging Vacuum Hose
Part # 07-00237-10
Pack Quantity: 1

Static Dissipate Kit

Work surface to prevent electrostatic discharge
Part # 07-00277-00
Pack Quantity: 1

Grounding Strap

Wrist strap to prevent electrostatic discharge
Part # 07-00304-00
Pack Quantity: 1

Electronic Vacuum Gauge

Measures vacuums down to 10 microns
Part # 07-00414-00
Pack Quantity: 1

Replacement Sensor for Electronic Vacuum Gauge (Part # 07-00414-00)
Part # 07-00414-01
Pack Quantity: 1

Digital Vacuum Gauge

Measures vacuums down to 1 micron for the vacuum hoses
Part # 07-60132-00
Pack Quantity: 1

Gauge Set

Manifold Gauge Set
R134A PSI
Part # 07-00294-00
Pack Quantity: 1

Gauge Set

Manifold Gauge Set
R134A BAR
Part # 07-00294-05 | Pack Quantity: 1

Heavy Duty Manifold Gauge Set

Manifold Gauge Set
R134A PSI
Part # 07-00528-00 | Pack Quantity: 1

Leak Detector

For R-12, R-22, R-500, R-502, R134A, R404A
Part # 07-00295-00 | Pack Quantity: 1

Replacement Sensor

For Leak Detector (Part # 07-00295-00)
Part # 07-00296-00 | Pack Quantity: 3

Sensors

We qualify our sensors through a set of stringent processes to help ensure smooth, fault-free running of the system and precise temperature.
