

AN EXCHANGE OF TECHNICAL INFORMATION

Number: TL001 - 2022
Subject: Container Product Videos

Released: March 09, 2022

Carrier has created a Carrier Refrigeration channel on YouTube that contains videos for commercial and transport refrigeration, connected cold chain and more. Inside this channel is a [Container Refrigeration playlist](#) that includes a series of Carrier Transicold product videos to guide technicians in working with and understanding container refrigeration units.

Check the Container Refrigeration playlist frequently as new videos are added periodically. Click SUBSCRIBE on the channel to receive notifications when the content is updated.

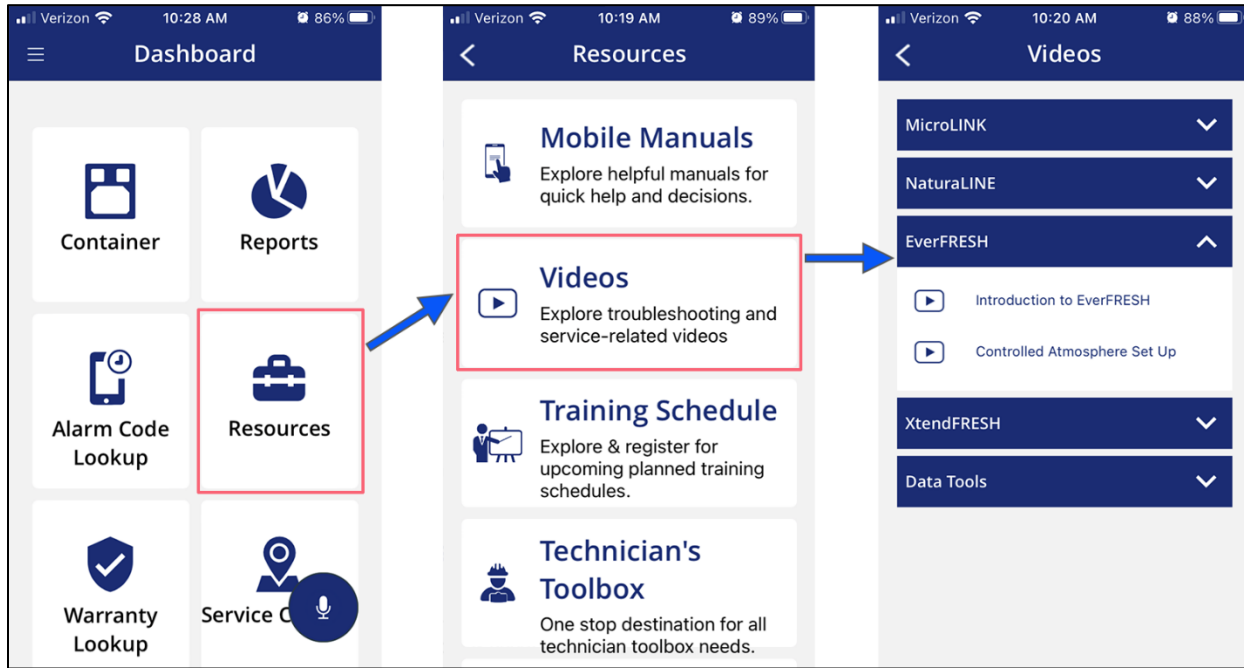

Detailed literature and product specifications are also available on the [Carrier Transicold website](#).

The screenshot shows the YouTube channel page for 'Carrier Refrigeration'. The channel name is 'Carrier Refrigeration' with 34 videos and 6,935 views. The main video featured is 'Container Refrigeration', which has 6,935 views and was last updated on Dec 9, 2021. The video description states: 'Carrier Transicold commemorates its heritage of container refrigeration innovation and leadership in 2018 by marking the 50th anniversary of its pioneering front-wall container refrigeration unit design. Carrier Transicold helps improve transport and shipping of temperature-controlled cargoes with a complete line of equipment and services for refrigerated transport and cold chain visibility. Carrier Transicold is an industry leader, providing customers around the world with advanced, energy-efficient and environmentally sustainable container refrigeration systems and generator sets, direct-drive and diesel truck units, and trailer refrigeration systems. Carrier Transicold is a part of UTC Climate, Controls & Security, a unit of United Technologies Corp., a leading provider to the aerospace and building systems industries worldwide.'

The channel's subscription button is labeled 'SUBSCRIBE'. A playlist of 8 videos is shown on the right:

1. Micro Channel Repair Instructional Video (3:20)
2. EverFRESH®con Opción de Inyección de CO2 (1:35)
3. EverFRESH® with CO2 Injection (1:35)
4. Micro-Link® 3 USB MST (3:55)
5. Changing Container ID (1:57)
6. Changing Container Date and Time (2:15)
7. Changing Controller Configuration (Model) (1:40)
8. Downloading Unit Data with a USB Device and Adapter (1:37)

Carrier Transicold service-related videos are now also available from Carrier's ContainerLINK™ app for service technicians. From the app main Dashboard, navigate to Resources > Videos.
