

COLD STORAGE

VIA 26 Shopping & Business center

2.000
kW AC

600
kW 20/75°C Heating

750
kW 25/50°C Heating

Oslo, Norway

Installed in Q2 2021

Building 58,500 m² AC and heating for exclusive shops, high-end offices and parking facilities

Equipment

2

Power CO₂OL

Modulating ejector

Flooded MT / LT

Hot water

Heat reclaim
2 temp levels

AC chiller

Integration in environmentally responsible building

Energy consumption :

COP > 4 for air conditioning and 5 on heating mode.
Heat used tap water + air / floor heating, snow melting...
Combination of AC and heating mode at the same time

Sustainable, low GWP refrigerant solution
