

Badger EXTRA Universal Ultra AR-AFFF Foam

Stored Pressure
Hand Portables

FOAM

Badger's unique line of portable foam fire extinguishers contain an alcohol resistant (AR) type of aqueous film-forming foam (AFFF). They are specifically formulated for optimum performance in a hand portable fire extinguisher. This means when sufficiently applied, Universal Ultra's vapor sealing capability can actually prevent a fire from happening.

Badger foam units are effective on Class A common combustibles as well as hydrocarbon and polar solvent types of Class B flammable liquids, so they eliminate the application guesswork often associated with other foams. The unique synthetic base of Universal Ultra foam has no offensive odor, is non-toxic, environmentally-friendly, biodegradable and extremely simple to use and clean up.
